Performing Commemoration Sep 29 2022 Public commemorations of various kinds are an important part of how groups large and small acknowledge and process injustices and tragic events. *Performing Commemoration: Musical Reenactment and the Politics of Trauma* looks at the roles music can play in public commemorations of traumatic events that range from the Armenian genocide and World War I

to contemporary violence in the Democratic Republic of the Congo and the #sayhername protests. Whose version of a traumatic historical event gets told is always a complicated question, and music adds further layers to this complexity, particularly music without words. The three sections of this collection look at different facets of musical commemorations and reenactments, focusing on how music can mediate, but also intensify responses to social injustice; how reenactments and their use of music are shifting (and not always toward greater social effectiveness); and how claims for musical authenticity are politicized in various ways. By engaging with critical theory around memory studies and performance studies, the contributors to this volume explore social justice, in, and through music.

Jazz from Detroit Oct 07 2020 Jazz from Detroit explores the city's pivotal role in shaping the course of modern and contemporary jazz. With more than two dozen in-depth profiles of remarkable Detroit-bred musicians, complemented by a generous selection of photographs, Mark Stryker makes Detroit jazz come alive as he draws out significant connections between the players, eras, styles, and Detroit's distinctive history. Stryker's story starts in the 1940s and '50s, when the auto industry created a thriving black working and middle class in Detroit that supported a vibrant nightlife, and exceptional public school music programs and mentors in the community like pianist Barry Harris transformed the city into a jazz juggernaut. This golden age nurtured many legendary musicians—Hank, Thad, and Elvin Jones, Gerald Wilson, Milt Jackson, Yusef Lateef, Donald Byrd, Tommy Flanagan, Kenny Burrell, Ron Carter, Joe Henderson, and others. As the city's fortunes change, Stryker turns his spotlight toward often overlooked but prescient musician-run cooperatives and self-determination groups of the 1960s and '70s, such as the Strata Corporation and Tribe. In more recent decades, the city's culture of mentorship, embodied by trumpeter and teacher Marcus Belgrave, ensured that Detroit continued to incubate world-class talent; Belgrave protégés like Geri Allen, Kenny Garrett, Robert

Hurst, Regina Carter, Gerald Cleaver, and Karriem Riggins helped define contemporary jazz. The resilience of Detroit's jazz tradition provides a powerful symbol of the city's lasting cultural influence. Stryker's 21 years as an arts reporter and critic at the Detroit Free Press are evident in his vivid storytelling and insightful criticism. Jazz from Detroit will appeal to jazz aficionados, casual fans, and anyone interested in the vibrant and complex history of cultural life in Detroit.

Tschaikowsky and His Orchestral Music Jan 28 2020 "Tchaikowsky and His Orchestral Music" by Louis Biancolli is a book about analyses and backgrounds of most of Tschaikowsky's standard concert music. A sketch of Tschaikowsky's life precedes the section devoted to orchestral music. Yet, the personal outlook and moods of Russia's great composer are so inextricably bound up with his music, that actually the whole booklet is an account of his strangely tormented life. In the story of Tschaikowsky, life and art weave into one closely knit fabric.

A Conceptual Framework for SMART Applications in Higher Education: Emerging Research and Opportunities Sep 05 2020 With the rapid availability of information, it becomes essential to keep pace with this availability as well as process the information into knowledge that has real-world applications. Neuroscientific methods allow an approach to this problem based on the way that the human brain already operates. Over the centuries and through observation and trial and error, we already know a great deal about how we can teach and learn, but now we can verify this with scientific fact and discover previously unknown aspects of brain physiology. These observations of brain

functioning have produced many learning theories, all of which have varying degrees of validity. These theories, in turn, give birth to theories and models of instructional design, which also have varying degrees of validity. *A Conceptual Framework for SMART Applications in Higher Education: Emerging Research and Opportunities* is a critical scholarly publication that explores how the brain acquires and processes information to turn information into knowledge and the role of SMART technology and how it combines and integrates visual and aural data to facilitate learning. The book also discusses ways to apply what is known about teaching to how the brain operates and how to incorporate instructional design models into the teaching and learning process. Highlighting various topics such as neurogenesis, smart technologies, and behaviorism, this book is essential for instructional designers, online instruction managers, teachers, academicians, administrators, researchers, knowledge managers, and students.

Andre Kostelanetz on Records and on the Air Jul 16 2021 Organized chronologically by album, North details each recording with the composer, song title, timing, date and site of the recording session, producer of that session, matrix numbers, and every American issue of each recording. Several appendixes organize the information alphabetically by composer, song title, and album title, referencing the discography by date of recording. Available downloads from the Internet are included in the song title appendix, while additional appendixes address CDs and V-Discs, the records created by the U.S. Army and Navy for worldwide distribution to members of the armed forces during World War II. An important extra in the book is a survey of Kostelanetz's career and an evaluation of his achievements, contributed by noted radio historian Dick O'Connor. A foreword by Barbara Haws, archivist and historian of the New York Philharmonic, completes this invaluable reference.
