Cultivating Communities of Practice Aug 29 2022 Today's marketplace is fueled by knowledge. Yet organizing systematically to leverage knowledge remains a challenge. Leading companies have discovered that technology is not enough, and that cultivating communities of practice is the keystone of an effective knowledge strategy. Communities of practice come together around common interests and expertise- whether they consist of first-line managers or customer service representatives, neurosurgeons or software programmers, city managers or home-improvement amateurs. They create, share, and apply knowledge within and across the boundaries of teams, business units, and even entire companies-providing a concrete path toward creating a true knowledge organization. In *Cultivating Communities of Practice*, Etienne Wenger, Richard McDermott, and William M. Snyder argue that while communities form naturally, organizations need to become more proactive and systematic about developing and integrating them into their strategy. This book provides practical models and methods for stewarding these communities to reach their full potential-without squelching the inner drive that makes them so valuable. Through in-depth cases from firms such as DaimlerChrysler, McKinsey & Company, Shell, and the World Bank, the authors demonstrate how communities of practice can be leveraged to drive overall company strategy, generate new business opportunities, tie personal development to corporate goals, transfer best practices, and recruit and retain top talent. They define the unique features of these communities and outline principles for nurturing their essential elements. They provide guidelines to support communities of practice through their major stages of development, address the potential downsides of communities, and discuss the specific challenges of distributed communities. And they show how to recognize the value created by communities of practice and how to build a corporate knowledge strategy around them. Essential reading for any leader in today's knowledge economy, this is the definitive guide to developing communities of practice for the benefit-and long-term success-of organizations and the individuals who work in them. Etienne Wenger is a renowned expert and consultant on knowledge management and communities of practice in San Juan, California. Richard McDermott is a leading expert of organization and community development in Boulder, Colorado. William M. Snyder is a founding partner of Social Capital Group, in Cambridge, Massachusetts.

Communities of Practice Oct 31 2022 Presents a broad conceptual framework for thinking about learning as a process of social participation.

Das Konzept der „Communities of Practice“ in der lernenden Organisation Jul 24 2019 Studienarbeit aus dem Jahr 2006 im Fachbereich BWL - Unternehmensführung, Management, Organisation, Note: 1,3, Universität Konstanz, Veranstaltung: Management des Wandels, 22 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Die gesellschaftliche Realität befindet sich auf dem Weg von der Industrie- über die Informations- hin zur Wissensgesellschaft. Die Informationsgesellschaft bringt eine Informationsflut mit sich, die ohne technische Hilfsmittel nicht mehr überschaubar ist. Um die richtigen Entscheidungen im richtigen Moment treffen zu können, bedarf es jedoch einer schnellen, gezielten und verständlichen Bereitstellung der gesuchten Information zur richtigen Zeit, am richtigen Ort und in der richtigen Qualität. Diese Bereitstellung ist der Erfolgsfaktor, an dem sich heutige Unternehmen im internationalen wie nationalen Wettbewerb messen lassen müssen. Aus diesem Grunde ist es unumgänglich, dass ein Unternehmen in seiner Handlungsweise dynamisch agiert und sich einem ständigen Wandel unterzieht. Nur so kann sich ein Unternehmen in einer komplexeren neuen Umwelt mit verändernden Anforderungen an die Organisation durch eine gesteigerte Problemlösungsfähigkeit behaupten. Diese Erkenntnis führt zu dem Konzept der lernenden Organisation. Die Lernfähigkeit wird nach Pautzke (1989: 2) zu einer Ressource, die zum entscheidenden Faktor der Zukunft werden kann bzw. es schon häufig ist. Nach der Definition des „organisationalen Lernens“ von Probst/Büchel (1998: 17) ist darunter der Prozess der Veränderung der organisationalen Wissensbasis, die Verbesserung der Problemlösungs- und Handlungskompetenz sowie die Veränderung des gemeinsamen Bezugsrahmens von und für Mitglieder der Organisation zu verstehen. Die organisationale Wissensbasis setzt sich aus individuellen und kollektiven Wissensbeständen zusammen, auf die eine Organisation zur Lösung ihrer Aufgaben zurückgreifen kann und umfasst darüber hinaus die Daten und Informationsbestände, auf welchen individuelles und organisationales Wissen aufbaut (vgl. Probst et al. 1999: 46).

Communities of Practice an Musikhochschulen Jun 22 2019 Musikhochschulen zeichnen sich im Vergleich zu anderen Hochschultypen durch Besonderheiten aus, die sowohl in ihrer Entwicklungsgeschichte wie auch durch das besondere Lern-Lehr-Szenario des künstlerischen Hauptfachunterrichts begründet sind. Daraus folgt, dass sozialen Lernprozessen in Musikhochschulen eine besondere Bedeutung zukommt. Auch wenn das Musikstudium durch das traditionelle Bild der Meisterlehre geprägt ist, zeigt dieser Band, dass Musikstudierende in ihrer Community of Practice verschiedenen Entwicklungsphasen durchleben, die sie vom Newcomer zum Oldtimer führen.

Beyond Communities of Practice Dec 29 2019 This book consists of a set of studies exploring the concept of "communities of practice", which has been influential in social sciences, education, and management in recent years. Its main purpose is to emphasize the importance of areas such as language, power, and social context which are essential to understanding how communities of practice work. The concept has been a particularly influential one but has had little sustained critique, so a book of this kind is timely and necessary.

Das Konzept "Communities of Practice" - Wie die Einführung und Entwicklung von "Communities of Practice" im Unternehmen unterstützt werden kann Dec 21 2021 Studienarbeit aus dem Jahr 2005 im Fachbereich BWL - Unternehmensführung, Management, Organisation, Note: 2,0, Universität Konstanz, 18 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Wissen gewinnt im 21. Jahrhundert immer weiter an Bedeutung und wird zu einem entscheidenden Wettbewerbsfaktor für Unternehmen. Diese Hausarbeit vertieft das Konzept sogenannter „Communities of Practice“ (CoPs), stellt deren Bedeutung für wissensorientierte Unternehmen heraus und untersucht, wie deren Entstehung und Entwicklung gefördert werden kann. Die Schwierigkeit, die informellen Strukturen einer CoP dem Management zugänglich zu machen, ohne die selbstorganisierenden Kräfte zu behindern, wird erörtert und Lösungen werden vorgeschlagen. Im Mittelpunkt stehen dabei konkrete Gestaltungsempfehlungen für den Manager, die auf die organisationalen Eigenheiten dieser Communities gerichtet sind.

Communities of Practice Mar 24 2022 This benchmark text provides an accessible yet critical introduction to the theory and application of communities of practice and their use in a diverse range of managerial and professional contexts, from education to human resource development. This book charts the development of the idea of communities of practice and explores the key relationship between learning and identity among: newcomers and 'old timers' male and female workers the low skilled and the high skilled

professionals and managers adults and adolescents. Drawing on international empirical studies and adopting a multi-disciplinary approach, this book is useful reading for all students, researchers, practitioners and policy makers with an interest in work, employment, labour markets, learning, training or education.

Communities of Practice in Health and Social Care Sep 17 2021 Communities of Practice in Health and Social Care highlights how communities of practice (CoPs) can make service development and quality improvement in health and social care easier to initiate and more sustainable. Using a series of case studies from the UK and Australia the book demonstrates how the theory of CoPs is implemented in the delivery of health and social care and highlights the associated potential, complexities, advantages and disadvantages. Communities of Practice in Health and Social Care equips practitioners, managers, educators and practice mentors with the knowledge and skills to facilitate the development and maintenance of Communities of Practice and highlights how the effects of Communities of Practice might be made explicit.

Communities of Practice (CoP) in der Lehre Apr 12 2021 Studienarbeit aus dem Jahr 2003 im Fachbereich BWL - Personal und Organisation, Note: 1,3, Carl von Ossietzky Universität Oldenburg (Fakultät II, Informatik, Wirtschafts- und Rechtswissenschaften), Veranstaltung: ABWL II - Allgemeine Betriebswirtschaftslehre Organisation, Sprache: Deutsch, Abstract: Die Schule als ein Ort des Wissens steht im ständigen Wandel. Zweifelsfrei besitzt die Schule ein nahezu unerschöpfliches Wissenspotential. Die Lehrer und Lehrerinnen verfügen durch ihre Ausbildung und ihre (Lehr-)Erfahrungen über einen großen individuellen Wissensschatz. Das zentrale Problem liegt jedoch darin, dass das individuell akkumulierte Wissen nicht durch das Lehrerkollegium genutzt wird. Im Rahmen unserer Hausarbeit wollen wir deshalb untersuchen, ob durch die Wissensmanagement-Strategie der Community of Practice (CoP) dieses Problem beseitigt werden kann und somit die Lehr- und Lernbedingungen an der Schule verbessert werden können. Dazu werden wir im zweiten Kapitel den Wissensbegriff und die Bedeutung des Wissensmanagements beleuchten, bevor wir uns in Kapitel 3 intensiver mit der CoP befassen. Inwiefern eine Übertragung der in Unternehmen bereits verwendeten CoP's auf die Schule gelingen kann, wird im vierten Kapitel geprüft. Dabei legen wir als Handelslehramtsstudenten ein gewisses Augenmerk auf die Übertragungsmöglichkeiten im berufsschulischen Kontext. Abschließend werden wir ein Fazit ziehen, in dem wir einzuschätzen versuchen, ob die CoP's auf die Schule übertragbar sind und somit zu einer Verbesserung der Lehr- und Lernbedingungen an der Schule beitragen können.

Cultivating Communities of Practice Jan 10 2021 Today's economy is fueled by knowledge. Every leader knows this to be true, yet few have systematic methods for converting organizational knowledge into economic value. This book argues that communities of practice--groups of individuals formed around common interests and expertise--provide the ideal vehicle for driving knowledge-management strategies and building lasting competitive advantage. Written by leading experts in the field, *Cultivating Communities of Practice* is the first book to outline models and methods for systematically developing these essential groups. Through compelling research and company examples, including DaimlerChrysler, McKinsey & Company, Shell, and the World Bank, authors Etienne Wenger, Richard McDermott, and William M. Snyder show how world-class organizations have leveraged communities of practice to drive strategy, generate new business opportunities, solve problems, transfer best practices, develop employees' professional skills, and recruit and retain top talent. Underscoring the new central role communities of practice are playing in today's knowledge economy, *Cultivating Communities of Practice* is the definitive guide to fostering, designing, and developing these powerful groups within and across organizations.

Implementing Communities of Practice in Higher Education Jan 22 2022 In this edited collection, the authors pick up the communities of practice (CoP) approach of sharing practice in their reflection on the experience of taking their CoP vision from a dream to reality. Their stories articulate the vision, the passion and the challenge of working within and/or changing existing institutional culture and practice. The book discusses strategies that worked and considers the lessons learnt to inspire future dreamers and schemers. The multiple perspectives provided in the case studies will assist higher education leaders, as well as academic and professional staff, in establishing or assessing CoPs. The book offers insights into implementation strategies, practical guidelines and ideas on how CoP theoretical underpinnings can be tailored to the higher education context.

Digital Habitats Sep 25 2019 Technology has changed what it means for communities to "be together." Digital tools are now part of most communities' habitats. This book develops a new literacy and language to describe the practice of stewarding technology for communities. Whether you want to ground your technology stewardship in theory and deepen your practice, whether you are a community leader or sponsor who wants to understand how communities and technology intersect, or whether you just want practical advice, this is the book for you.

Situated Learning Nov 07 2020 In this important theoretical treatise, the authors push forward the notion of situated learning - that learning is fundamentally a social process.

Building Successful Communities of Practice Jul 28 2022 Connecting with other people, finding a sense of belonging and the need for support are natural human desires. Employees who don't feel supported at work don't stay around for long - or if they do, they quickly become unmotivated and unhappy. At a time when organisational structures are flattening and workforces are increasingly fluid, supporting and connecting people is more important than ever. This is where organisational communities of practice come in. Communities of practice have many valuable benefits. They include accelerating professional development; breaking down organisational silos; enabling knowledge sharing and management; building better practice; helping to hire and retain staff; and making people happier. In this book, Emily Webber shares her learning from personal experiences of building successful communities of practice within organisations. And along the way, she gives practical guidance on creating your own.

Communities of Practice in the History of English Feb 20 2022 Languages change and they keep changing as a result of communicative interactions and practices in the context of communities of language users. The articles in this volume showcase a range of such communities and their practices as loci of language change in the history of English. The notion of communities of practice takes its starting point in the work of Jean Lave and Etienne Wenger and refers to groups of people defined both through their membership in a community and through their shared practices. Three types of communities are particularly highlighted: networks of letter writers; groups of scribes and printers; and other groups of professionals, in particular administrators and scientists. In these diverse contexts in England, Scotland, the United States and South Africa, language change is not seen as an abstract process but as a response to the communicative needs and practices of groups of people engaged in interaction.

Das Konzept der "Communities of Practice" und seine Bedeutung für das Führungslernen Mar 12 2021 Diplomarbeit aus dem Jahr 2010 im Fachbereich BWL - Personal und Organisation, Note: 2,7, FernUniversität Hagen, Sprache: Deutsch, Abstract: Es gab lange Zeit die Auffassung, dass Führung weder eine lehr- noch lernbare Kunst sei (vgl. Gutenberg 1962, 5, Vorwort). Gegen dieses Argument steht jedoch die Tatsache, dass der Mensch weitreichende Fähigkeiten besitzt zu lernen und somit auch Führung prinzipiell lern- und entwickelbar ist (vgl. Hentze et al., 2005, S. 79). Führung ist ein komplexes Phänomen und es gibt dazu verschiedenste Definitionen und Ansätze in der Führungsforschung. Führung kann aus Sicht des Führers, des Geführten und aus relationaler bzw. Prozesssicht betrachtet werden. Aufgrund dieser Vielseitigkeit ist die Frage nach dem Erlernen von Führung ebenfalls sehr komplex und zum Teil noch unerforscht.

European Union Communities of Practice Dec 09 2020 This book provides a practice-based analysis of European Union (EU) diplomacy and community-building. Unlike studies focusing on how EU community-building proceeds centrally in Brussels, this book turns to EU diplomacy in its bordering state of Ukraine. At a time when the EU's internal cohesion is being put to the test, this book provides novel insights into how feelings of belonging are produced amongst its members in the absence of a homogenous 'we'. Transcending the traditional dichotomy between macro-structures and micro-processes of interaction, the book demonstrates that the EU's large-scale community depends for its existence on practical instantiations of community-building in distinct 'communities of practice'. Using the case of an EU diplomatic 'community of practice' in Kyiv, Ukraine, takes these questions to the EU's margins, highlighting that the boundaries of community are key sites in which community materialises. The in-depth case study identifies diplomats' 'boundary work' as the constitutive rule that makes the local 'community of practice' cohere and create feelings of belonging to the large-scale polity of the EU. This book will be of interest to researchers of European studies, as well as to those working on global cooperation and international relations more broadly.

Knowledge Networks Jun 14 2021 *Knowledge Networks: Innovations Through Communities of Practice* draws on the experience of people who have worked with CoPs in the real world and to present their combined wisdom in a form that is accessible to a wide audience. CoPs are examined from a practical, rather than a purely academic point of view. The book also examines the benefits that CoPs can bring to an organization, provides a number of case studies, lessons learned and sets of guidelines. It also looks at virtual CoPs and to the future by asking 'what next?' This book is a resource for all people who work with CoPs - both in academia and in the real world.

Communities of Musical Practice May 14 2021 Every day people come together to make music. Whether amateur or professional, young or old, jazz enthusiasts or rock stars, what is common to all of these musical groups is the potential to create communities of musical practice (CoMP). Such communities are created through practices: ways of

engaging, rules, membership, roles, identities and learning that is both shared through collective musical endeavour and situated within certain sociocultural contexts. Ailbhe Kenny investigates CoMP as a rich model for community engagement, musical participation and transformation in music education. This book is the first to produce a valid and reliable in-depth study of music communities using a community of practice (CoP) framework - in this case focusing on the social process of musical learning. Employing case study research within Ireland, three illustrations from particular sociocultural, genre-specific, economic and geographical contexts are examined: an adult amateur jazz ensemble, a youth choir, and an online Irish traditional music web platform. Each case is analysed as a distinct community and phenomenon offering sharpened understandings of each sub-culture with specific findings presented for each community.

The Organizational Embeddedness of Communities of Practice Aug 05 2020 This dissertation uncovers how informal and self-organized communities of practice as a source of learning and adaptability are embedded in their formal organizational surroundings. Based on an interpretative case study of three communities of practice within the German Federal Armed Forces, the author theorizes this embeddedness as shaped through cultural dynamics and leadership processes. In particular, the author draws on a practice lens and complexity leadership theory in explaining how communities of practice generate new resources (i.e., adaptability), produce and reproduce broader socio-cultural structures, and are enabled as well as influenced by formal leadership.

Exploring Communities of Practice in Further and Adult Education Mar 31 2020 Drawing on international research and professional practice, this book provides a rich, detailed, and accessible guide to Communities of Practice (CoP) theory, with information on how the theory is constructed, the research that it rests on, and the ways that it has been used in thinking about learning and teaching in the further and adult education sectors. Exploring Communities of Practice in Further and Adult Education introduces CoP theory and the theory of learning that goes with it. It provides empirical examples of CoP research from a range of settings, including further and adult education, to illustrate how CoPs form and work within educational settings, including thinking about assessment and evaluation. It also explores how different CoPs work together and can learn from each other. With these key elements described, this book demonstrates how CoPs can be used in further and adult education settings to help understand more about how students and staff learn. With engaging material including examples from research, prompts for professional learning, and case studies, this comprehensive and accessible title will appeal to student teachers and beginning teachers as well as more experienced teachers in the sector looking to refresh their practice.

Communities of Practice and English as a Lingua Franca Aug 17 2021 This is a timely book on one of the most widely debated issues in applied linguistics: what is the social and cultural significance of English as a lingua franca for the internationally mobile students of the 21st century in Central Europe? Through an in-depth analysis of social practices, the book develops an exciting, innovative multilingual approach to out-of-class language use and language learning that engages students in the co-construction of identities. Apart from scholars, the book will appeal to policy makers and educators who are concerned with the internationalization of universities in Central Europe.

Communities of Practice as Vibrant Sources of Knowledge and Innovation within a Rigid Public Hierarchy Aug 24 2019 The concept of Communities of Practice is nowadays 'common parlance' in the private and public sector. However, research concerning the potential and benefits of CoPs embedded in public organizations lacks behind. Consequently, it still remains vague whether informal CoPs are able to unfold their widely recognized potential in terms of knowledge creation and dissemination within the context of the public sector. To shed light on this issue, the author employs the German Federal Armed Forces as a research setting since it is an outstanding example for a supremely hierarchical public organization showing a high degree of formalization in structure and processes. The research at hand particularly focuses the entanglement of the formal organization with the informal CoPs. More specifically, the author was inspired by the interest in exploring which role these informal entities play in regard to the development of knowledge and innovations, thereby, possibly fostering the organizational knowledge management as well as the adaptability of a supremely hierarchical public organization. About the author André Kreutzmann prepared the dissertation at hand at the Institute of Technology and Innovation Management at the Helmut-Schmidt-University. As a member of a research project commissioned by the German Ministry of Defense, he investigated the potential of Communities of Practice in terms of knowledge management, innovation development, and organizational adaptation.

Communities of Practice als Teil des Knowledge Management Nov 27 2019 Diplomarbeit aus dem Jahr 2002 im Fachbereich BWL - Unternehmensführung, Management, Organisation, Note: 2,0, Hochschule Bremen (FB Wirtschaft), 63 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Vorrangig soll die Umsetzung von

„Communities of Practice“ in einem Unternehmen wie der STN ATLAS Elektronik GmbH beleuchtet werden. Da die CoP 's ein Teil des Themas Wissensmanagement sind, wird dieser Bereich durch Grundlagen erläutert. Diese Arbeit soll eine Entscheidungshilfe darstellen, um zu analysieren, ob, wann und wie CoP 's bei STN ATLAS ELEKTRONIK eingeführt werden sollen. Zur Zeit läuft ein Umstrukturierungsprojekt mit dem Namen Way2Success (W2S), in dem auch die Einführung von Knowledge Management ausgearbeitet wird. Mehr zu diesem KM Projekt bei STN ATLAS ELEKTRONIK unter Punkt 3.8. Weiter erhebe ich den Anspruch, neben der rein theoretischen Betrachtung dieses Themas auch einen nicht unerheblichen Teil durch eine praktische Ausarbeitung zu untermauern. Dieses soll durch die Umsetzung der Erkenntnisse über CoP 's in ein praktikables Intranet-Tool realisiert werden. Das 1. Kapitel beschreibt die Motivation und die Zielsetzung, die mit dieser Diplomarbeit „Communities of Practice als Teil des Knowledge Management“ verbunden sind. In Kapitel 2 wird die Firma STN ATLAS Elektronik GmbH mit historischem Abriss und neuere Entwicklungen des Unternehmens dargestellt. Im 3. Teil wird der Begriff „Wissensmanagement“ durch theoretische und praktische Erläuterungen verständlich dem Leser näher gebracht. Hier wird der bei STN ATLAS ELEKTRONIK stattfindende Wissensmanagement Prozess, der zur Zeit als Projekt beim Reorganisationsprojekt Way2Success läuft, näher erläutert. Das 4. Kapitel behandelt die Communities of Practice. Es wird geklärt, in wieweit CoP 's positiv auf den Wissensaustausch innerhalb von Organisationen einwirken können und welche Grundlagen dafür geschaffen werden müssen. Der 5. Teil beschäftigt sich mit der Umsetzung der voraus gegangenen Erkenntnisse über CoP 's und Wissensmanagement in ein praktikables Intranet Tool. Dieses soll die Kommunikation zwischen den Mitgliedern von CoP 's fördern. Als Abschluß wird in Kapitel 6 ein Fazit über „Communities of Practice“, Wissensmanagement und der Entwicklung eines Intranet-Tools gezogen.

Building Virtual Communities of Practice for Distance Educators Oct 19 2021 As colleges, universities and other learning institutions explore teaching and learning through online environments, online communities of practice may provide solutions to organizational and professional development needs. The purpose of this book is to develop a set of guidelines for creating a virtual community of practice for faculty teaching at a distance that can easily be implemented by faculty development professionals. Designing a virtual community of practice can be operationalized using the ADDIE model to guide the process. Based on an instructional systems design process, the ADDIE model emphasizes the five core elements of the instructional systems design process: analyze, design, develop, implement and evaluate; often it serves as a project management tool or to provide a visual aid for organization of relevant tasks.

Communities of Practice Jul 16 2021 1.1 Introduction Each year corporations spend millions of dollars training and educating their - ployees. On average, these corporations spend approximately one thousand dollars 1 per employee each year. As businesses struggle to stay on the cutting-edge and to keep their employees educated and up-to-speed with professional trends as well as ever-changing information needs, it is easy to see why corporations are investing more time and money than ever in their efforts to support their employees' prof- sional development. During the Industrial Age, companies strove to control natural resources. The more resources they controlled, the greater their competitive edge in the mark- place. Senge (1993) refers to this kind of organization as resource-based. In the Information Age, companies must create, disseminate, and effectively use kno- edge within their organization in order to maintain their market share. Senge - scribes this kind of organization as knowledge-based. Given that knowledge-based organizations willcontinuetobeadrivingforcebehindtheeconomy, itisimperative that corporations support the knowledge and information needs of their workers.

Communities of Practice Apr 24 2022 In this book about communities of practice in the international, higher education sector, the authors articulate the theoretical foundations of communities of practice (CoPs), research into their application in higher education, leadership roles and how CoPs sustain and support professional learning. Research demonstrates that communities of practice build professional and personal links both within and across faculty, student services and administrative and support units. This book describes how community of practice members may be physically co-located and how social media can be used to connect members across geographically diverse locations. It positions higher education communities of practice within the broader community of practice and social learning literature, and articulates the importance of community of practice leadership roles, and the growing focus on the use of social media for community of practice implementation. The multiple perspectives provide higher education leaders, academic and professional staff with the means to establish, or reflect on existing CoPs, by sharing insights and critical reflections on their implementation strategies, practical guidelines and ideas on how community of practice's theoretical underpinnings can be tailored to the higher education context.

Leveraging Communities of Practice for Strategic Advantage Jul 04 2020 How can you build a successful community of practice that is integrally linked to your company's strategic vision? Learn from the first-hand experience of Hubert Saint-Onge, recognized by Fortune magazine as a leader in the field of knowledge capital, and co-author Debra Wallace, the people responsible for a recent project to establish a community of practice for independent agents at Clarica Life Insurance Company— voted one of the most admired knowledge enterprises in the world by practitioners and researchers. 'Leveraging Communities of Practice for Strategic Advantage' combines theory and practice to outline a model for developing successful communities of practice and proposes a direction for establishing communities of practice as an integral part of the organizational structure. Saint-Onge and Wallace relate what worked, what didn't, and why as they tell the story from inception through implementation to assessment. Whether you're developing communities of practice or want to learn how to leverage existing communities for strategic gain, this book provides you with everything you need to launch successful communities of practice in your organization.
