[The Emerald Modem](#) Jun 19 2019 Twenty years ago, in England, author Richard Leviton "discovered the planet." Following quite specific guidance, he began a long process that amounted to an apprenticeship. "My mentors dispatched me to various specific locations in the Somerset landscape, and at all hours of the night and day. I sat on hills and valleys and rocks under sunlight, moonlight, rain, snow, and fog, and had visions. I started to see another landscape behind the apparent landscape. It was an apparitional landscape with stars, planets, galaxies, angels, spirits of Nature, mythic deities, divinity." As time went on, he found himself talking with angels, visiting celestial cities, and following gnomes. He came to understand that at one level we are the planet, and that both we and it have an intimate relationship with our galaxy. "I found myself living inside the myths of the world as if they were expert scripts for real-life inner adventures. I never once thought I was crazy. Why should I? Quite the opposite. I believed I was finally getting grounded in something real. But it would take me twenty years to make sense of it. That sense is embodied in *The Emerald Modem*." *The Emerald Modem* includes direct correspondences between human chakras and the Earth's energy features--and the galactic originals tables listing locations of sacred sites around the planet where you may experience this relationship explanations of world myths, which provide clues to this unsuspected visionary world around us This is the first book to synthesize all the fragments of geomantic perception (sacred sites, energy points, vortexes, etc.) into a global interactive model that ties human consciousness directly to it. Leviton describes 85 subtle features in the planetary landscape, places you can go for mystical experiences. They are features of the Earth's energy body, almost all invisible to conventional sight. But psychic cognition can be trained, and you can usefully interact with any of these types of sites today without seeing what you're doing. Your intent to interact for the benefit of yourself and the planet is all that's required. Just as modems dial us into the Internet, so the features of the Earth's energy body described in *The Emerald Modem* help us get online with the galaxy. You can learn to visit Grial Castles, experience a Mount Olympus, or walk through the stars in a landscape zodiac--and you can learn enough to become confident that you're not traveling alone.

[The Energy-based Realms](#) Jan 27 2020 Most planets in the universe consist not only of a material part, but generally, also of several energy-based dimensions. The earth also belongs to these planets and therefore, consists not only of a material-based level and thus a material-based living space, but also just as much of two different energy-based levels and thus two different energy-based living spaces. The material-based level of the earth is assigned to the so-called material-based dimension and thus the living space of the third dimension. The energy-based level of planet earth consists of the habitat of the fifth dimension and the habitat of the seventh dimension. Whereby, the two energy-based dimensions are based on completely different conditions and laws, even if they combine the commonality of the energy-based level. So far, most people were convinced that the earth is a living space of the material-based dimension and thus left the subtle level to predominantly religious and spiritually oriented explanatory models. Explanatory models, which in most cases arise from human imagination and therefore, very rarely, correspond to the truth. The energy-based levels of the earth have no relation to any religious or spiritual realities of humans. The energy-based level of the earth is. Quite different from what people visualize in their imaginations.

[Earth's Energy Balance](#) Jul 21 2019 [The Geomantic Year](#) Mar 09 2021 The spiritual world blesses the Earth at least 58 times a year--here's how you can join the party. Do you think folklore customs about solstices and equinoxes and other regular celebration days are quaint holdovers from the past? Not so. Do you sometimes wish there were a way to include the entire planet in a meditation practice? There is, and it's called the geomantic year. At least 58 times a year the spiritual world--angels, archangels, Ascended Masters, Star-Angels, even the Supreme Being--tunes in to the Earth, blesses, and even heals it in real-time day-long events. Our planet is constantly receiving input from the cosmos and heavenly realms. It's all part of a rhythmic maintenance calendar in which the Earth is enlivened, and all of humanity is invited to participate. This book shows you how. What kinds of events? On Epiphany, January 6, the Christ focuses on the planet to birth his Light. On Bifrost Paints the Planet, April 10, the Great Bear constellation envelops the Earth in 14 rays of light. On Michaelmas, September 29, the Archangel Michael cleanses the Earth's sacred sites and all their "plumbing." Other events in the geomantic year involve stars, Nature Spirits, holy mountains, River-gods, Pleiadians, Hollow Earth dwellers, Grail Kings, volcano spirits, the Great Mother, and much more. The Geomantic Year documents 58 festival dates that focus on the Earth through its sacred sites, and it provides 58 simple meditations to help you participate. And it offers 12 informative essays linking Earth energies with hot topics such as the Illuminati and world control, parallel universes, the world's gold supply, the Ghost Dance, the Fall of Man, Earth and climate changes, and the apocalyptic year 2012. Why not get out your appointment book and pencil in a few dates: the Earth's expecting you!

[A guide to Leylines, Earth Energy Lines and Nodes](#) Aug 02 2020 [Earth Energies Jun 12 2021](#) Examinations and accounts of experimentation with subtle energies. In addition to the scientifically accepted forces of electricity, magnetism, and gravity, there are, according to the author, "psychoenergetic" forces, those that interact with the mind as well as the body. His research deals with the energies behind extraordinary phenomena like non-physical healing, levitation, telekinesis, superstrength, and many others in which the mind is always an important factor. He touches on pyramid power, dowsing, feng shui, and the use of magnets for healing. These, and many more sources may have a single energy in common; the same way different physical elements all have electrons in common. Leave skepticism behind, and be fascinated by his examples and observations that may someday prove to be of practical value, and no more "strange" than bread mold being used to cure disease.

[Dowsing for Health](#) Jul 01 2020 [Earth Energy Apr 22 2022](#) "Earth Energy provides profound and insightful knowledge for returning to proven ancient and indigenous wisdom practiced successfully through the ages: thus written by my friend Betsey Lewis. She provides invaluable information for those who love Mother Earth and want her healed again. With admitted climate change/planetary heating, we can't ignore Black Elk's warning vision. We must practice mindfulness, balance and respect for Mother Earth, if we are to save our planet, ourselves and all life--it's that critical!"-- Ed McGaa "Eagle Man" Sioux/Lakota author of Mother Earth Spirituality, Spirituality for America and other books. Something transformational is taking place on Mother Earth according to the 13 Indigenous Grandmothers of the World, the Maya, the Hopi and other indigenous elders. They have been told by Star Beings that we live in a time that will herald the "Galactic Dawn"--a mass awakening of humanity to our cosmic origins and intergalactic relationships. They say that humanity and Earth will be cleansed of all the accumulated negativity as we go from the Fourth World into the Fifth World. In Earth Energy discover why humanity must return to a more natural way and reverence of life. Discover the prophecies, the mysteries and legends of the spirit elements found in Water, Earth, Fire and Air. This is the way to Ancient Earth Wisdom. "Humanity has forgotten the sacredness of everything on our unique planet and it is this ancient wisdom we must practice again. We must return to a simpler life, a more spiritual life, a more compassionate life, and a more caring life. Mother Earth is asking us to return to ayni-balance. Our very survival depends on it," says author and intuitive Betsey Lewis Earth Energy includes indigenous prayers, sacred ceremony for healing our unique planet and Earth friendly environmental suggestions.

**Powering Planet Earth May 23 2022** In their book Nicola Armadori, Vincenzo Balzani and Nick Serpone uncover the background details associated with a transition to sustainable energy production that are routinely swept under the table in public discussions. They are not only concerned with the (alleged) advantages and disadvantages of any one energy generation technology from a technical viewpoint, but also with the ecological, economic, political and social consequences of an inevitable transition. In a highly readable manner aimed at an international audience, the authors introduce the often misused and sometimes abused term 'energy' and give a lucid account of the development of energy production from timber to nuclear energy and renewable energies. They compare various energy generation methods with respect to their efficiency and practicability for large-scale implementation and examine if, and how, these methods live up to the expectations and promises their proponents make. In addition, the authors juxtapose the political and economic prerequisites in different regions of the world that advance, or hinder, an energy turnaround. They round off their book by debunking the seventeen most popular myths often cited in discussions on energy issues. As a result, the authors provide ammunition for debate, underpin (and unsettle) opinions using facts, and challenge comfortable and popular chains of reasoning.

**Pleiadian Earth Energy Astrology Jan 19 2022** Discover how to navigate the spiral energy patterns of the Universe for spiritual advancement and conscious evolution • Explains how the cycles of the 13 spirals of Universal energy and the 20 spirals of Earth energy interact on each calendar day as well as provides a Pleiadian perspective on how they influence us and the events in our lives • Offers practical examples of how you can consciously use the energies prevalent on a given day to your personal, spiritual benefit • Shares cosmic wisdom teachings from the Pleiadian group known as Laarkmaa Modern science has finally confirmed an essential component of the Pleiadian teachings: Our Universe is not linear; it moves in spirals. Human evolution also unfolds in spirals, rather than the linear progression we call "progress." Sharing the cosmic wisdom teachings they have received from the Pleiadian group known as Laarkmaa, authors Pia Orleane and Cullen Baird Smith reveal a new system of Pleiadian-Earth energy astrology centered on the spiraling and interconnected movement of Universal and Earth energies, rather than on time, and explain how this new wave of Pleiadian wisdom can support human evolution. The authors identify two major spiral patterns that influence us: the 13 spirals of Universal energy that reflect cosmic laws and cosmic truth and the 20 spirals of Earth energy that reflect how humans experience themselves, each other, and their environment. They explain the dominant energy of each of the 13 Universal energy spirals and how they cycle in 13-day periods. They detail how these 13 Universal energy spirals interact with the cycles of the 20 Earth energy spirals on each calendar day, providing a hundred-year ephemeris and a Pleiadian perspective with which to understand the events in your life. Offering practical examples, they show how you can consciously use the energies prevalent on a given calendar day to your personal, spiritual advantage. Providing a map to transcend all systems that no longer serve us, freeing us to become the enlightened cosmic beings we truly are, the authors show how, with the wisdom of the Pleiadian-Earth energy system, we can each discover our specific gifts, work through the challenges of our own shadows, and individually and collectively evolve into a higher vibrational species.
