Natural Language Processing and Information Systems Aug 05 2020 This book includes the papers presented at the fifth International Conference on Application of Natural Language to Information Systems (NLDB 2000) which was held in Versailles (France) on June 28-30.

Following NLDB95 in Versailles, NLDB96 in Amsterdam, NLDB97 in Vancouver, and NLDB99 in Klagenfurt, NLDB 2000 was a forum for exchanging new research results and trends on the benefits of integrating Natural Language resources in Information System Engineering. Since the first NLDB workshop in 1995 it has become apparent that each aspect of an information system life cycle may be improved by natural language techniques: database design (specification, validation, conflict resolution), database query languages, and application programming that use new software engineering research (natural language program specifications). As information systems are now evolving into the communication area, the term databases should be considered in the broader sense of information and communication systems. The main new trend in NLDB 2000 is related to the WEB wave: WEB querying, WEB answering, and information retrieval. Among 47 papers submitted from 18 countries, the program committee selected 29 papers to be presented during the conference. Besides these regular papers, two invited talks (given by Pr. Reind P. van de Riet and Pr. Maurice Gross), and a set of posters and demonstrations are also included in these proceedings.

Tourism and Tourism Spaces Aug 24 2019 This is a critical introduction to the relations

between tourism, tourists, and tourism spaces. It fuses economic and cultural perspectives to explain how tourism is dependent on place and space, while at the same time as defining those places and spaces. Examining different levels of scale - from local to global - *Tourism and Tourism Spaces* is informed by the discussion of three key processes: - production and consumption of tourist spaces - consumption and commodification of tourist experiences - construction and reconstruction of tourist spaces Each chapter engages with different theoretical perspectives; is illustrated with comparative examples and case studies; uses tables, boxes and figures throughout; and concludes with a summary. An integrated and systematic review of a range of theoretical positions - that integrates economic and cultural - *Tourism and Tourism Spaces* will be a key resource for students of geography, sociology, management studies, hospitality studies, and leisure studies.

Die territoriale Struktur Spaniens Jan 22 2022 Die spanische Verfassung gibt keine spezifische Territorialstruktur vor, weswegen kontrovers diskutiert wird, wie der auf der Grundlage dieser Verfassung entstandene Staat der Autonomen Gemeinschaften einzuordnen ist. Diese Arbeit stellt die für das Verständnis der heutigen Verfassungslage erforderliche Entwicklung Spaniens ebenso umfassend dar wie den verfassungsrechtlichen Rahmen des Staates der Autonomen Gemeinschaften und dessen Ausfüllung. Darauf aufbauend wird untersucht, inwiefern föderale Elemente diese territoriale Struktur prägen, wobei insbesondere die verfassungsrechtliche Position des spanischen Senats analysiert wird. Die abschließende Klassifizierung der Territorialstruktur erfolgt vor dem Hintergrund der Existenz zahlreicher asymmetrischer Elemente.

The Boy Who Sailed the Ocean in an Armchair Sep 17 2021 All Becket wants is for his family to be whole again. But standing in his way are two things: 1) his dad, his brother and him seem to have run away from home in the middle of the night and 2) Becket's mum died before he got the chance to say goodbye to her. Arming himself with an armchair of stories, a snail named Brian and one thousand paper cranes, Becket ploughs on, determined to make his wish come true. "A Boy Called Hope was a standout debut in 2014, and this shows the same emotional depth and poignancy, though told with a very accessible lightness of touch" - *The Bookseller* "Lara Williamson writes books that are poignant and heart-warming, books unequivocally and unashamedly about love... The humour comes from Becket's idiosyncratic view of life, and the things he gets up to with little brother Billy, but also from the gap that exists between adults' and children's understanding of the world. Becket does find the answers to his questions, and ends the book happier and a bit wiser - readers will too." - *LoveReading4Kids* "Lara excels at writing stories that walk a fine line between humour and sadness. One minute, you are wiping a sad tear away, the next you're crying with laughter." - *Serendipity Reviews* "An incredibly emotional read, all because of Lara's perfectly crafted characters, writing and storytelling. A story of friendship, love, loss and so much more, touching on subjects rarely addressed. I am incredibly excited to read more of Lara's work in the future." - *BookMonsters*

Biogeography and Ecology of the Pityusic Islands Oct 07 2020 A large part of this book is dedicated to the geology of the Pityusic Archipelago, followed by contributions on climate and geography. Funguses, mosses and leeks are the subjects of taxonomical botany, and a further paper deals with the vegetation of the islands. Another large part of this book is concerned with zoology: faunal lists on fleas, bees, wasps, ants, butterflies, beetles, snails, amphibians and reptiles, birds and mammals, the latter with their epi- and endofaunas as well as their subfossil remains are presented in 13 different papers. Three of them deal with the special problems of isolation and evolution of new races on rocks and small islets: tenebrionid beetles, lizards and terrestrial snails. Man, as an important factor in the Pityusic Islands, is dealt with in six contributions: prehistory, which means pre-Phoenician and which is treated for the first time, folk architecture, the 'endemic' dialect of the Catalonian language, exploitation of some natural resources and finally the problems of inbreeding and related matters on Formentera. The book closes with an outlook on the present state of the Pityusic nature and tries to show ways of conserving all important parts of the archipelago, so that 'our' two islands may preserve some of their typical vegetation, plants and animals and, thus, of their character.

Tourism Innovation Apr 12 2021 Tourism can take many different forms and types but increasingly it is viewed as one of the most innovative industries. This book showcases the innovations in tourism through a creativity, sustainability and technology perspective. Tourism Innovation: Technology, Sustainability and Creativity addresses the growing use and importance of tourism innovation in society. Readers of this book will gain a global perspective on how the tourism industry is changing and taking advantage of emerging technologies, which will help them to foresee potential changes in the industry and plan for the future. Tourism innovation is defined as innovating in a cost-efficient manner by taking into account the available resources. Most of the focus on tourism innovation has been on developing countries but it is also used by companies in other locations. This book explores the way in which tourism innovation differs from other types of innovation and offers a creative solution to issues about sustainability and the circular economy. In this vein, it includes chapters addressing issues related to the following but not limited subjects: co-creation in innovation, social issues in innovation, leadership and innovation, forms of innovation, government innovation and innovation research. This book is suitable for tourism industry professionals, researchers and policy experts who are interested in how innovation is embedded in the tourism industry.

Superstar DJs Here We Go! Sep 05 2020 "It was about larging it. It was about pulling out a

wad of 20s when you were buying your champagne at the bar. It was about buying your cocaine in an eight ball. It was about wearing designer clothes. At that top tier of that club scene, it was about giving it loads." With a foreword by music journalist, Miranda Sawyer, Superstar DJs Here We Go! is the full, unexpurgated story of the biggest pop culture phenomenon of the 1990s: the rise and fall of the superstar DJ. During the 1990s big names such as Sasha, Jeremy Healy, Fatboy Slim, Dave Seaman, Nicky Holloway, Judge Jules, and Pete Tong exploded out of acid house, becoming international jetsetters, flying all over the world just to play a few hours and commanding up to £140,000 a night. The plush, heavily branded 'superclubs' where they performed - clubs like Cream, Ministry, Renaissance and Gatecrasher - were filled with thousands of adoring clubbers, roaring their approval of their DJ gods. For the DJs and promoters, it was a licence to print money and live like a rock star. For clubbers, it was a hedonistic utopia where anyone and everyone could come together to look fabulous, take drugs, and dance the night away. But underneath the shiny surface lurked a darker side, a world of cynical moneymaking, rampant egos and cocaine-fuelled self-indulgence that eventually spiralled out of control leaving behind burnt-out DJs, jobless promoters and a host of bitter-sweet memories. They went from having the clubbing world at their feet to the world's biggest comedown. Dom Phillips - former editor of clubbers' bible Mixmag - reveals an enthralling and at times jaw-dropping account of flawed people, broken dreams and what really happens when it all goes Pete Tong.

Global Nomads Aug 17 2021 Global Nomads provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, Global Nomads develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

Weimar in Exile Jan 28 2020 A magisterial history of the artists and writers who left Weimar when the Nazis came to power In 1933 thousands of intellectuals, artists, writers, militants and other opponents of the Nazi regime fled Germany. They were, in the words of Heinrich Mann, "the best of Germany," refusing to remain citizens in this new state that legalized terror and brutality. Exiled across the world, they expressed the fight against Nazism in prose, poetry, painting, architecture, film and theater. Weimar in Exile follows these lives, from the rise of national socialism to the return to their ruined homeland, retracing their stories, struggles, setbacks and rare victories. The dignity in exile of Walter Benjamin, Ernst Bloch, Bertolt Brecht, Alfred Doblin, Hans Eisler, Heinrich Mann, Thomas Mann, Anna Seghers, Ernst Toller, Stefan Zweig and many others provides counterpoint to the story of Germany under the Nazis.
