Denzin asserts that alcoholism is a disease in which negative emotions divide the self into warring, inner factions, fueled and distorted by alcoholic intoxication. The work is solidly anchored in a long-term study of the socialization experiences that began in alcoholism treatment centers and continue in Alcoholics Anonymous recovery programs. It covers the treatment process, the restructuring of self, the alcoholic's interaction with his recovery treatment program, and the modalities of self-transcendence that

result from treatment.

The Alcoholic Self
Aug 25 2019 Denzin
offers a uniquely
phenomenological
approach to explain
the development of
an alcoholic's sense
of self that is
fragmented,
defensive and
subjective. He
discusses
behavioural and
psychoanalytic
theories of the
problem and
considers the views
of alcoholics
themselves. He
places the disease
within a broader
social context,
arguing that the
alcoholic's internal
conflicts reflect the
dichotomies and
contradictions in
society.

earliest days. Forty years later, hip-hop music has grown into a billion-dollar global industry, and its influence on visual art and society has also expanded. This book-length printed edition of Arts collects essays by scholars who explore this evolving influence through their work in art education, cultural theory, and visual culture studies. The topics covered by these authors include discussions on identity and cultural appropriation, equity and access as represented in select works of art, creativity and copyright in digital media, and the use of fine art tropes

The Evolution of Human Consciousness and Linguistic Behavior

Oct 08 2020

Drawing from the disciplines of cognitive science, Paleolithic anthropology, art history, and semiotics, Karen A. Haworth and Terry J. Prewitt offer a novel discussion of the origins of language, based primarily in the distinction of holistic versus analytical cognitive processing. Also, by employing a refined view of human symboling capacities grounded in the writings of C. S. Peirce, they provide a short but comprehensive explanation of what the artifacts and art of the Paleolithic and Mesolithic periods suggest about language origins. Their interpretation

supports a semiotic argument that “iconic and indexical logical modeling” precedes human elaboration of experience by symbolic reference in words or propositions, and ultimately in what Peirce called “the argument.”

Further, they suggest that the use of symbols to model the world developed rapidly between about 20,000 and 10,000 years ago, and has the effect of giving emphasis to analytic thought as the dominant mode of human consciousness.

Rather than seeing symbols as the impetus for human logic, they argue for presymbolic elements of logic in

categories shared widely by humans and other animals. Intended readers are scholars in philosophy, anthropology, psychology, linguistics, and semiotics, as well as interested nonspecialists. The presentation is also complemented with brief personal narratives, intended to offer background that helps make a dense academic argument more accessible to the widest audience possible. The authors’ insights into the basis for language have ramifications for any number of other fields: education, psychology, philosophy, prehistory, and art, to name a few.

Your Model Horse Collection Reference Guide
2017 Apr 25 2022
Breyerfest 2017 Edition. When I had 100 models I could still remember what I owned. When I had 300 models I computerized my records - and crated the first version of this list. That was years ago. Breyer had added thousands of new models and hundreds of new molds. New (and old) companies have come and gone, or changed names. I'm always looking for more information, especially for companies and models not listed in this book. Detail

start to escape me - was that the bay with 3 socks and black hooves, or the bay with 3 socks and pink hooves, of the bay with 4 socks version? There is just too much information to remember. I'm an avid collector. When I first started in the hobby, there were no books available, just box catalogs. This book is meant to be a record of YOUR collection. It is meant to be written in. You can mark if you own it or just want it. You can even write in a name for your model under the notes section. See you at Breyerfest!
