Grammars of Identity/alterity Nov 22 2019 Issues of the construction of Self and Other, normally in the context of social exclusion of those perceived as different, have assumed a new urgency. This collection offers a fresh perspective on the ongoing debates on these questions in the social sciences and the humanities by focusing specifically on one theoretical proposition, namely, that the seemingly universal processes of identity formation and exclusion of the 'other' can be differentiated according to three modalities. All contributors directly engage with rigorous empirical testing and theoretical cross-examination of this proposition. Their results have direct implications not only for a more differentiated understanding of collective identities, but also for a better understanding of extreme collective violence and genocide.

Puppet Master Complete Aug 20 2019 This book is a comprehensive history of the most successful straight-to-video horror franchise of all time: Puppet Master. It provides an in-depth exploration of all 14 films to date--including a made-for-TV crossover and a theatrical reboot--and the action figures, comics, and other merchandise that have helped to keep the brand alive for the past 30 years. Puppet Master was the first film for independent producer extraordinaire Charles Band's Full Moon Entertainment, launching a franchise and a micro-budget studio that have both continued to this day. What led to the film's success? How did a little movie about killer puppets, designed to cater to the then-booming video market, wind up surviving video stores themselves? How did a series that had never even had a theatrical entry wind up with an unusually successful toy series? All of these questions are answered within these pages. Featuring new interviews with some of the biggest creative minds behind the franchise, as well as dozens of behind-the-scenes photos, this book is the ultimate guide to horror's most murderous marionettes.

*Spaces of Puppets in Popular Culture* Jan 05 2021 This first book-length exploration of geographical engagement with puppets examines constructions of puppets in contemporary popular British culture and considers the various ways in which puppets and humans (not just puppeteers) are unified in diverse cultural media. Organised around themes of metaphorical, performative and transformational puppets, the work draws out how puppets are used in diverse cultural media (fiction, music, television, film and theatre), how they are constructed through those uses, and to what effect. Both puppets as generalised forms (bodily, relational or ideational) and specific puppet characters (Mr Punch, Pinocchio) are explored. Building upon existing associations between puppets and the grotesque, the volume extends understandings of the puppet by elaborating borderscaping strategies through

which puppets are constructed and an alternative perspective on the uncanniness of puppets. Geographically, it unearths distinct puppet spatialities, identifies the socially critical potential of puppets, rescales geo/bio-politics at the interpersonal level, and highlights the potential of puppets within posthuman debates about the status of the human. This work will be of interest to anyone fascinated by puppets, as well as those in fields such as geography, anthropology, cultural and media studies, and those interested in the grotesque, posthumanism and/or non-representational scholarship.

*Puppets of Nostalgia* Oct 26 2022 *Puppets of Nostalgia* is the first major work in any Western language to examine the ritual origins and religious dimensions of puppetry in Japan. In a lucid and engaging style accessible to the general reader, Jane Marie Law describes the "life, death, and rebirth" of awaji ningyo shibai, the unique form of puppet theater of Awaji Island that has existed since the sixteenth century. Puppetry rites on Awaji helped to maintain rigid ritual purity codes and to keep dangerous spiritual forces properly channeled and appeased. Law conducted fieldwork on Awaji, located in Japan's Inland Sea, over a ten-year period. In addition to being a detailed history and ethnography of this ritual tradition, Law's work is, at a theoretical level, a study of the process and meaning of tradition formation, reformation, invention, and revitalization. It will interest scholars in a number of fields, including the history of religions, anthropology, cultural studies, ritual and theater studies, Japanese studies, and social history. Focusing on the puppetry tradition of Awaji Island, *Puppets of Nostalgia* describes the activities of the island's ritual puppeteers and includes the first English translation of their performance texts and detailed descriptions of their rites. Because the author has lived on Awaji during extended periods of research, the work includes fine attention to local detail and nuanced readings of religious currents in Japan that affect popular religious expression. Illustrated throughout with rare photographs, the book provides an in-depth view of a four-hundred-year-old tradition never so thoroughly revealed to Western readers. Originally published in 1997. With the idea of giving assistance to the novice, and help to the more advanced student, the book is written in plain and concise language the diagrams and photographs should explain the intricacies of puppet-making, leaving the individual to fill in the details from his own imagination. **Puppets and Cities** Aug 12 2021 Nations in Southeast Asia have gone through a period of rapid change within the last century as they have grappled with independence, modernization, and changing political landscapes. Governments and citizens strive to balance progress with the need to articulate identities that resonate with the pre-colonial past and look towards the future. *Puppets and Cities: Articulating Identities in Southeast Asia* addresses how puppetry complements and combines with urban spaces to articulate present and future cultural and national identities. Puppetry in Southeast Asia is one of the oldest and most dynamic genres of performance. Bangkok, Jakarta, Phnom Penh, and other dynamic cities are expanding and rapidly changing. Performance brings people together, offers opportunities for economic growth, and bridges public and private spheres. Whether it is a traditional shadow performance borrowing from Star Wars or giant puppets parading down the street-this book examines puppets as objects and in performance to make culture come alive. Based on several years of field research-watching performances, working with artists, and interviewing key stakeholders in Southeast Asian cultural production-the book offers a series of rich case studies of puppet performance from various locations, including: theatre in suburban Bangkok; puppets in museums in Jakarta, Indonesia; puppet companies from Laos PDR, the National Puppet Theatre of Vietnam, and the Giant Puppet Project in Siem Reap, Cambodia; new global puppetry networks through social media; and how puppeteers came together from around the region to create a performance celebrating ASEAN identity.

**The Plays of Henry Fielding** May 09 2021 Henry Fielding was one of the most interesting playwrights of his time because of his historical position, similar to that of George Bernard Shaw, and his awareness of what it meant to be a playwright at a time when the native dramatic tradition appeared to have settled down for a long sleep and when the only hope for an awakening lay in such low crowd-pleasers as farces, puppet shows, "laughing" tragedies, and ballad operas. By focusing on the plays themselves, Rivero tells the story of Fielding's dramatic career without burdening the reader with an exhaustive history of contemporary plays and playwrights. He provides us with a clear, critical account of Fielding's dramatic career in terms of trends in contemporary dramatic affairs that help to account for his artistic choices in individual plays.

**The Puppets of Low Magic** Dec 16 2021 The late 17th/early 18th centuries marked a time of awakening, with the birth of institutions of higher learning, yet the most enlightened of that time spent their cognitive brilliance debating how many angels could fit upon the head of a pin. Satan was ubiquitous, and he was known to have appeared in many forms. He was thought forever present on the Earth, a wolf amongst God's holy sheep, watching, waiting for his chance to corrupt the faithful. Temptation loomed-witchcraft was actually practiced-and good men prayed hard for deliverance from Beelzebub and his foul minions. Rachel Mapes is a Puritan woman who, upon accident of birth, receives an IQ of 160. She has a level of understanding that would take others years of book-learning to achieve. She is able to make connections where it would seem no connection was possible. She possesses strong powers of intuition. And she has to hide her special abilities...or be burned at the stake. But what if she really is a witch...?

*Puppets and "popular" Culture* May 21 2022 Shershow examines an astonishing range of texts and performers - from Ben Jonson to Jim Henson, from Plato to Punch and Judy, from Enlightenment essays to works by the modernist avant-garde. He shows that the many forms of puppet theater which have flourished on the margins of social life in the carnival, fairground, and marketplace - have been both disparaged and celebrated by authors attempting to demonstrate their own legitimate or literary status.

**Spark to a Waiting Fuse** Jul 19 2019 A landmark in New Zealand literary scholarship, this book provides an extraordinary insight into the formative years of one of New Zealand's most significant poets. Included are 56 letters written by James K. Baxter to his slightly older friend, Noel Ginn, who was at the time imprisoned as a conscientious objector. In these letters, a teenage Baxter pours out his ideas and feelings on life, philosophy, and his own work. Included are the complete texts of the 255 poems written at the time and discussed in the letters. The introduction, an important work of biographical criticism in its own right, puts Baxter's ideas and interests within the context of the wider public events and intellectual

and spiritual currents of his time.

**Improvisation and Composition in Balinese Gendér Wayang** Feb 18 2022 This book is an examination of the music of the Balinese gendér wayang, the quartet of metallophones - gendér - that accompanies the Balinese shadow puppet play - wayang kulit. The book focuses on processes of musical variation, the main means of creating new music in this genre, and the implications of these processes for the social and historical study of Balinese music, musical aesthetics, concepts of creativity and compositional methods. Dr Nick Gray tackles a number of core ethnomusicological concerns in a new way, including the relationship between composition and improvisation, and also highlights issues specific to Balinese music, including the importance of flexibility in performance, an aspect that has been largely ignored by scholars. Gray thus breaks new ground both in the study of issues relating to improvisation and composition and in Balinese music studies.

**Our Puppet Government** Sep 20 2019 Few realize a New World Order plans to replace our constitution with a Single World Government, nor that our Federal Reserve Bank is privately owned and is not subject to oversight by Congress or the President. Its stockholders include the Rockefellers, Goldman Sachs and Lehman Brothers of New York; the Rothschild's of London and Berlin; the Lazard Brothers of Paris; Israel Seiff of Italy; the Kuhn & Loeb Company of Germany; and the Warburgs of Hamburg and Amsterdam, earning almost two billion dollars a day in interest as they buy off our dysfunctional Congress and intentionally level this great nation. George H. W. Bush, the undisputed "Overlord" of the Shrub Dynasty, in his State of the Union Message in 1991 said: "What is at stake is more than one small country, it is a big idea - a new world order." Did We the People ever agree to this treasonous act of turning over our nation's sovereignty to a Single World Government? About the Author John R. Krismer, MHA-LFACHE is founder and CEO of Health Systems Institute, consulting with governments, hospitals, clinics, and professional organizations. He has conducted hundreds of educational institutes, and served as a principal investigator, researching the health record database system, which involved four major universities. He has served as CEO of several hospitals and corporations, and as a board member of two health insurance companies. He has been referred to as a visionary ahead of his time.

**Phenomenology of a Puppet Theatre** Mar 27 2020 No previous work on wayang has treated in depth what is the focus of this book: the power of the theatrical medium, the actuality of the performance as a physical, emotional, and social experience and event, and the sensations and feelings involved in performing and watching an all-night wayang performance. A single puppeteer moves puppets, delicately carved and painted according to a complex iconography, in dance-like patterns integrated with continuous music, which he also directs; he speaks the voices of all characters; and he represents beings and a mythological world that reflect (on) the human world, including the specific occasion and the people present. Paying attention to the wholeness of the 'multimedia' performance as an event, as well as to the sensations, subtle movements, and particular intonations of the performance, the author of this book bases his 'thick description' on years of learning to perform wayang, attending and participating in performances, interviews and discussions with people involved with wayang, supplemented by study of texts, from old manuscripts and performance manuals to newspaper articles and reports on performances. He shows the need not to be limited to any single discipline: in wayang, the relationships and interaction, for example, between visual movements and music, or between actions on the screen and actions among the audience-participants, are no less significant than, for example, the relationships within music. The book includes the most extensive discussion of recent changes in wayang theatre, its interaction with various traditional and modern entertainments, and the ways it is affected by politics and economy. A postscript focuses on the post-Soeharto era. The book is a contribution to the study of Indonesian performing arts and culture, but it is also intended for anyone interested in theatre and performing arts generally. Book jacket.
