The Emerging Practice of the International Criminal Court Nov 27 2019 The International Criminal Court is at a crossroads. In 1998, the Court was still a fiction. A decade later, it has become operational and faces its first challenges as a judicial institution. This volume examines this transition. It analyses the first jurisprudence and policies of the Court. It provides a systematic survey of the emerging law and practice in four main areas: the relationship of the Court to domestic jurisdictions, prosecutorial policy and practice, the treatment of the Court's applicable law and the shaping of its procedure. It revisits major themes, such as jurisdiction, complementarity, cooperation, prosecutorial discretion, modes of liability, pre-trial, trial and appeals procedure and the treatment of victims and witnesses, as well as their criticisms. It also explores some of challenges and potential avenues for future reform.

Criminal Procedure Law Oct 31 2022 The divergence of the law and the practice has never been as visible in other areas of law as it is in the area of Criminal Procedure. Hence, the title Criminal Procedure: Principles, Rules and Practices. In the first part, the book gives a succinct summary of the ideal procedure should the law be strictly complied with and the (political and economic) challenges in the administration of the criminal justice. For the main part, reproducing the relevant provisions of the law the book discusses the principles and the law on Criminal Procedure comprehensively. Court decisions are reproduced and discussed in order to show the practice and trends in the interpretation and application of the law. The only binding decisions in our legal system are decisions of the House of Federation on matters of constitutional interpretation and the Federal Supreme Court Cassation Division decisions by at least five judges, of which there are very few to refer to. The book approaches Criminal Procedure as a process; thus, it chronologically discusses the steps from crime reporting to the police to prosecution, trial and post judgment remedies. The comments on the law are intertwined with the discussion on the application of the law

Commonwealth Caribbean Criminal Practice and Procedure Sep 29 2022 The fifth edition of this best-selling book has been thoroughly revised to take into account recent developments in the law in criminal practice and procedure across the region. As the only textbook to explore criminal practice and procedure as it relates to the Commonwealth Caribbean, the book clarifies the state law in each of 11 jurisdictions, while at the same time making it clear when laws are the same or similar and highlighting where differences among jurisdictions occur. Both statute law and common law are examined in the relevant jurisdictions, which include Trinidad and Tobago, Guyana, Barbados, Jamaica and Grenada amongst others. The impact of statutory changes in the laws are analysed, as well as recent developments in the common law. Throughout the text the statutory law in the Commonwealth Caribbean is compared with similar English legislation, in light of the analysis of such legislation in English case law. This book is the recommended textbook for all professional law schools in the Commonwealth Caribbean and is used at regional universities as a reference book for criminal justice students. governing the conduct of proceedings in all major international and internationalized criminal courts from the Nuremberg and Tokyo Tribunals to the recently established Cambodian Extraordinary Chambers and the Special Tribunal for Lebanon. Based on a major research project, the study covers all procedural phases from the initiation of investigation to the appeals process. It pays special attention to the crosscutting themes which shape the contemporary discourse on international criminal justice, including the law of evidence, the defence issues, the procedural role of victims, and negotiated dismissal of international crime cases. The book not only takes stock of the procedural legacy of the UN ad hoc Tribunals for the former Yugoslavia and Rwanda and the International Criminal Court, but also reflects on the future directions of international criminal procedure. Investigating the tribunals' procedural law and practice through the prism of human rights law, domestic legal traditions, and tribunals' special objectives, the expert group puts forth proposals on how the challenges facing international criminal jurisdictions can best be met. International Criminal Procedure will be an indispensable work for practitioners involved in the adjudication of serious crimes on both national and international level, as well as international law students and academics.
