Craft Moves Aug 12 2021 Foreword by Lester Laminack How do you choose mentor texts for your students? How do you mine them for the craft lessons you want your students to learn? In *Craft Moves*, Stacey Shubitz, cofounder of the Two Writing Teachers website, does the heavy lifting for you: using twenty recently published picture books, she creates more than 180 lessons to teach various craft moves that will help your students become better writers. Stacey first discusses picture books as teaching tools and offers ways to integrate them into your curriculum, and classroom discussions. She also shares routines and classroom procedures to help students focus on their writing during the independent writing portion of writing workshop and

helps teachers prepare for small-group instruction. Each of the 184 lessons in the book includes a publisher's summary, a rationale or explanation of the craft move demonstrated in the book, and a procedure that takes teachers and students back into the mentor text to deepen their understanding of the selected craft move. A step-by-step guide demonstrates how to analyze a picture book for multiple craft moves. Using picture books as mentor texts will help your students not only read as writers and write with joy but also become writers who can effectively communicate meaning, structure their writing, write with detail, and give their writing their own unique voice.

The SAGE Handbook of Marxism Apr 20 2022 The past decade has witnessed a resurgence of interest in Marxism both within and without the academy. Marxian frameworks, concepts and categories continue to be narratively relevant to the features and events of contemporary capitalism. Most crucially, an attention to shifting cultural conditions has lead contemporary researchers to re-confront some classical and essential Marxist concepts, as well as elaborating new critical frameworks for the analysis of capitalism today. *The SAGE Handbook of Marxism*

showcases this cutting-edge of today's Marxism. It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory, and showcases interventions that set the agenda for Marxist research in the 21st century. A rigorous and challenging collection of scholarship, this book contains a stunning range of contributions from contemporary academics, writers and theorists from around the world and across disciplines, invaluable to scholars and graduate students alike. Part 1: Reworking the critique of political economy Part 2: Forms of domination, subjects of struggle Part 3: Political perspectives Part 4: Philosophical dimensions Part 5: Land and existence Part 6: Domains Part 7: Inquiries and debates

Routledge Handbook of Sustainable Product Design Jan 25 2020

As a cultivated form of invention, product design is a deeply human phenomenon that enables us to shape, modify and alter the world around us – for better or worse. The recent emergence of the sustainability imperative in product design compels us to recalibrate the parameters of good design in an unsustainable age. Written by designers, for designers, the Routledge Handbook of Sustainable Product Design presents the first

systematic overview of the burgeoning field of sustainable product design. Brimming with intelligent viewpoints, critical propositions, practical examples and rich theoretical analyses, this book provides an essential point of reference for scholars and practitioners at the intersection of product design and sustainability. The book takes readers to the depth of our engagements with the designed world to advance the social and ecological purpose of product design as a critical twenty-first-century practice. Comprising 35 chapters across 6 thematic parts, the book's contributors include the most significant international thinkers in this dynamic and evolving field.
