Alice im Wunderland Dec 03 2020 Ein sprechendes weißes Kaninchen, ein verrückter Hutmacher und Menschen, die wie Spielkarten aussehen - "Alice im Wunderland" ist der Kinderbuchklassiker schlechthin! Die kleine Alice folgt einem weißen Kaninchen in seinen Bau und fällt in die Tiefe. So gelangt sie in das unterirdische Wunderland, in dem alles anders ist als oben in der Menschenwelt. Alice fragt die unheimliche Grinsekatz nach dem Weg, feiert eine skurrile Teeparty mit dem verrückten Hutmacher, spielt Krocket mit der Herzkönigin und erlebt so manch andere wundersame Situation. Lewis Carroll

(1832-1898), eigentlich Charles Lutwidge Dodgson, war nicht nur ein englischer Schriftsteller, der mit "Alice im Wunderland" viele Generationen von Kindern verzauberte, sondern auch Fotograf und Mathematiker. Als Kinderbuchautor zeichnete er sich besonders durch Phantasieeichtum und Wortspiele aus. Inspiration für "Alice im Wunderland" war Alice Liddell, die kleine Tochter des Dekans des Christ Church Colleges in Oxford, wo Carroll studiert hatte.

Fire Mountains of the Islands Jan 04 2021 Volcanic eruptions have killed thousands of people and damaged homes, villages, infrastructure, subsistence gardens, and hunting and fishing grounds in Papua New Guinea and the Solomon Islands. The central business district of a town was destroyed by a volcanic eruption in the case of Rabaul in 1994. Volcanic disasters litter not only the recent written history of both countries—particularly Papua New Guinea—but are recorded in traditional stories as well. Furthermore, evidence for disastrous volcanic eruptions many times greater than any witnessed in historical times is to be found in the geological record. Volcanic risk is greater today than at any time previously because of larger, mainly sedentary populations on or near volcanoes in both countries. An attempt is made in this book to review what is known about past volcanic eruptions and disasters with a view to determining how best volcanic risk can be reduced today in this tectonically complex and volcanically threatening region.

The Story of Active and in Touch Frome 2011-2021 Oct 25 2022 The coronavirus pandemic has not only been terrifying—it has been revealing. In April 2020, Oliver Dowden, a member of parliament in the United Kingdom, said, “Coronavirus and social distancing have forced all of us to look loneliness in the eye. Recognizing the signs and tackling the stigma has never been more important.” The Story of Active and In Touch Frome recounts the extraordinary way “a whim of an idea” was planted in the local community of Frome in eastern Somerset, England, in 2011. The following decade witnessed a series of serendipitous moments that prepared a local charity to confront the unimaginable challenges of the pandemic. In June, A&IT received the Queen’s Award for Voluntary Service, the highest award a voluntary group can receive in the United Kingdom. Although this story focuses upon a local charity, it highlights how every community can muster the courage to “look loneliness in the eye” and help to build greater community cohesion.

A Writer's Guide to Active Setting Sep 24 2022 Enhance Your Fiction with the Power of an Active Setting! Setting is one of the most underutilized and misunderstood elements of the writing craft. And when writers do focus on setting, they often pull readers out of the narrative and jolt their attention from the action on the page. A Writer's Guide to Active Setting will show you how to create vivid, detailed settings that bring your story to life. You'll learn how to deepen character development, anchor readers to a specific time and place, reveal backstory without slowing things down, elevate action sequences, and more. Drawing upon examples from authors writing across a variety of genres, Mary Buckham will illustrate exactly how the proper use of setting can dramatically improve your story. You'll learn what's effective about each passage and how you can use those techniques to make your story shine. "Takes an all too often overlooked technique, and elevates it to a next-level game changer for powerful fiction." --Cathy Yardley, author of Rock Your Plot "A powerful combination of fresh insights, practical examples, and how-to advice on the often overlooked but critical element of setting...written in a quick-to-read and easy-to-understand style, and packed with useful application exercises." --Kelly L. Stone, author of Thinking Write: The Secret to Freeing Your Creative Mind "If you're a writer, then Mary Buckham's book is a must-have tool for your writer's toolkit. Creating settings that are rich and believable is not an easy task, but with this book, I found that each chapter gave me great tips that I could immediately implement in my manuscript." --Laurie G. Adams, author of Finding Atticus

The Story of Semiconductors Feb 23 2020 The book provides an overview of the fascinating spectrum of semiconductor physics, devices and applications, presented from a historical perspective. It covers the development of the subject from its inception in the early nineteenth century to the recent millennium. Written in a lively, informal style, it emphasizes the interaction between pure scientific push and commercial pull, on the one hand, and between basic physics, materials, and devices, on the other. It also sets the various device developments in the context of systems requirements and explains how such developments met wide ranging consumer demands. It is written so as to appeal to students at all levels in physics, electrical engineering, and materials science, to teachers, lecturers, and professionals working in

the field, as well as to a non-specialist scientific readership.

Wind Flowers Oct 01 2020 A classic collection of stories showcasing some of India's best-known writers After a hesitant start towards the end of the nineteenth century, short fiction in Malayalam came into its own in the 1930s. Since then, writer has experimented with content, style and language to give the genre a unique standing in contemporary Indian literature as perhaps the most translated, not just into English and other Indian languages but also into other media such as film and television. From Vaikom Muhammed Basheer and O. Vijayan to Kamamla Das and Sarah Joesph, this volume brings together an extraordinary range of writers and themes. There are among others, M.T. Vasudevan Mair's 'Oppol', a story about childhood innocence and loss, which was made into award-winning film, Paul Zacharia's 'Bhaskara Pattelar and my Life' a brilliant psychological examination of the master-slave dialectic; Lalithambika Antherjanam's path-breaking 'Goddess of Revenge' in which a young Namboodiri woman becomes a prostitute to expose the hypocrisy of her husband and their rigidly orthodox community; and N.S. Madhavan's classic story of an upper-caste widow who finds redemption in the forbidden touch of a Pulaya. Translated with flair and integrity, these stories capture the vibrancy of a literary culture at its creative best.

Selected Stories of Ralph Waldo Emerson Dec 15 2021 It chanced during one winter, a few years ago, that our cities were bent on discussing the theory of the Age. By an odd coincidence, four or five noted men were each reading a discourse to the citizens of Boston or New York, on the Spirit of the Times. It so happened that the subject had the same prominence in some remarkable pamphlets and journals issued in London in the same season. To me, however, the question of the times resolved itself into a practical question of the conduct of life. How shall I live? We are incompetent to solve the times. Our geometry cannot span the huge orbits of the prevailing ideas, behold their return, and reconcile their opposition. We can only obey our own polarity. 'Tis fine for us to speculate and elect our course, if we must accept an irresistible dictation.

On the Origin of Stories Mar 26 2020 A century and a half after the publication of Origin of Species, evolutionary thinking has expanded beyond the field of biology to include virtually all human-related subjects—anthropology, archeology, psychology, economics, religion, morality, politics, culture, and art. Now a distinguished scholar offers the first comprehensive account of the evolutionary origins of art and storytelling. Brian Boyd explains why we tell stories, how our minds are shaped to understand them, and what difference an evolutionary understanding of human nature makes to stories we love. Art is a specifically human adaptation, Boyd argues. It offers tangible advantages for human survival, and it derives from play, itself an adaptation widespread among more intelligent animals. More particularly, our fondness for storytelling has sharpened social cognition, encouraged cooperation, and fostered creativity. After considering art as adaptation, Boyd examines Homer’s Odyssey and Dr. Seuss’s Horton Hears a Who! demonstrating how an evolutionary lens can offer new understanding and appreciation of specific works. What triggers our emotional engagement with these works? What patterns facilitate our responses? The need to hold an audience’s attention, Boyd underscores, is the fundamental problem facing all storytellers. Enduring artists arrive at solutions that appeal to cognitive universals: an insight out of step with contemporary criticism, which obscures both the individual and universal. Published for the bicentenary of Darwin’s birth and the 150th anniversary of the publication of Origin of Species, Boyd’s study embraces a Darwinian view of human nature and art, and offers a credo for a new humanism.

Family Stories and the Life Course Mar 06 2021 This edited book draws from work that focuses on the act of telling family stories, as well as their content and structure. The process of telling family stories is linked to central aspects of development, including language acquisition, affect regulation, and family interaction patterns. This book extends across traditional developmental psychology, personality theory, and family studies. Drawing broadly on the epigenetic framework for individual development articulated by Erik Erikson, as well as on conceptions of the family life cycle, the editors bring together contemporary

examples of psychological research on family stories and their implications for development and change at different points in the life course. The book is divided into sections that focus on family stories at different points in the life cycle, from early childhood and the beginnings of narrative skill, through adolescence, young adulthood, midlife, and then mature adulthood and its intergenerational meaning. During each of these periods of the life cycle, research focusing on individual development within an Eriksonian framework of ego strengths and virtues is highlighted. The dynamic role of family stories is also featured here, with work exploring the links between family process, intergenerational attachment, and storytelling. Sociocultural theories that emphasize how such development is situated in the wider cultural context are also featured in several chapters. This broad lifespan developmental focus serves to integrate the exciting diversity of this work and foster further questions and research in the emerging field of family narrative. The book is intended primarily for researchers and advanced-level students in the fields of developmental and personality psychology, as well as those in family studies and in gerontology. It may also be of interest to those in the helping professions who are concerned with family therapy and family issues, and may--due to its content and illustrative material--have appeal to a wider market of the lay public. The chapters are written in a readily accessible style and the analyses are presented in a fairly non-technical way. Because family stories are charted across the lifespan, it would be a suitable companion book to a more traditional lifespan textbook in certain courses.

Mrs G's Family Fun Book May 28 2020 'Family Fun' is for children of all ages, There are stories for small children like the one about Molly who was very upset because she couldn't find her Teddy bear at bedtime. To stories for older children like Brett who thought (like most twelve year olds) that he had found a haunted house. Poem are there as well and on some pages there are pictures to colour. The older children can read their stories and parents can read to little children. In our lives our imaginations create many types of dreams and adventures and I think that 'Family Fun' could help young minds to stay active. (Mrs G.)

What's Your Story? Apr 26 2020 Everyone has a story to share. What's yours? In 2009, Brandon Doman, who has always been curious about the people with whom we share our world, sat at a local coffeehouse and decided to ask passersby a simple question: "What's your story?" Providing only paper and pens, Doman created an exploratory space that instantly intrigued people to share their stories anonymously. Now, more than 10,000 stories later, the Strangers Project has become a momentous movement, engaging strangers of all ages and backgrounds to reflect, rejoice, heal, and connect through words. Published here for the first time, *What's Your Story?* showcases a selection of two hundred stories from the Strangers Project. Equal parts heartbreaking and humorous, this moving compendium lays bare our universal truths, desires, and sufferings, and illustrates the emotional power of storytelling and our shared humanity. To complete this beautiful collage of stories, a blank page is included at the end for readers to add their own personal story. With more than fifty color photographs and illustrations

Three Early Stories (Scholastic Edition) Jul 30 2020 A young and ambitious writer named Jerome David Salinger set his goals very high very early in his career. He almost desperately wished to publish his early stories in *The New Yorker* magazine, the pinnacle, he felt, of America's literary world. But such was not to be for several long years and the length of one long world war. *The New Yorker*, whose tastes in literary matters were and remain notoriously prim and fickle, was not quite ready for this brash and over-confident newcomer with the cynical worldview and his habit of slangy dialogue. But other magazines were quick to recognize a new talent, a fresh voice at a time when the world verged on madness. *Story* magazine, an esteemed and influential small circulation journal devoted exclusively to the art of the short story and still active and respected today, was the first publication to publish the name J.D. Salinger and the story "The

Young Folks" in 1940, an impressive view of New York's cocktail society and two young people talking past one another, their conversation almost completely meaningless and empty. His next short story was published in a college journal, *The University of Kansas City Review*, "Go See Eddie," a tale of quiet menace as an unsavory male character gradually turns up the pressure on a young lady to see a man named Eddie. Also published in 1940, the story is notable for the backstory that is omitted - a technique that Hemingway used to great effect. Four years later toward the end of Salinger's war experience saw the publication of "Once A Week Won't Kill You," again in *Story* magazine. Ostensibly about a newly minted soldier trying to tell an aging aunt he is going off to war, some may see the story as a metaphor for preparing one's family for the possibility of wartime death. *Three Early Stories (Illustrated)*, published in 2014 by Devault-Graves Digital Editions, is the first legitimately published book by J.D. Salinger in more than 50 years. Its publication was a landmark in recent publishing history. Of particular interest to scholars and lovers of literature, these three tales mark the earlier period in the development of Salinger as a published writer, taking him from his first story sale to his life-changing experiences in World War II. This new Scholastic Edition of *Three Early Stories*, prepared by accomplished writer and English professor Michael Compton, includes a full study guide intended for use in high school and college classrooms. The study guide includes endnotes, discussion questions, writing prompts, essays and a Salinger timeline.

Bible Stories and Activities for Children Mar 18 2022 "This book of stories from the Bible with activities sparks curiosity, imagination, and questions in young minds. Authors Anne-Maria Bankay and Doreen Ellis know the love of God and His love for little children. Their collaboration produced an engaging way for children to enjoy hearing or reading stories while being active. *Bible Stories and Activities for Children* engages four of the five senses, which enhances learning. The activities that accompany the stories encourage creativity and thinking. This book is fun. Each page excites children to turn the page as they eagerly wonder what is next!" Mondrell Oz - Area Director, Opened Bible Academy, Dallas-Fort Worth, USA "Filled with eight favourite Bible stories, this book should be an enjoyable read for children in the 3 to 6 year old age group. The stories are short and can be read by older children, or read by adults to younger children as nighttime stories, or at various children's church programs. The activities are cleverly integrated with each story and should be engaging and fun for the children to complete." Dr. Yewande Lewis-Fokum - Lecturer in English Language and Literacy, Teacher Training and Development, Faculty of Humanities and Education, The University of the West Indies, Mona

Story Dash Oct 13 2021 Storytelling is a way for us to connect to others. But for businesses and managers, it can also be a powerful tool to help organizations grow and thrive. A leader's role is to create engagement and belief so that people will act. And there's no more powerful way to grab attention, be remembered, and engage action than by telling stories—about who you are, what you do, and why you do it. Today, “storytelling” is a hot topic in organizations... but most leaders still struggle to act upon it. How do we find and tell our stories quickly, in an environment of urgency where we can hardly pause to catch our breath? For more than a decade Hutchens has tested his method of rapid and strategic story development with innovation teams in Silicon Valley, across global Fortune 100 leadership teams, and more. Hutchens has honed a unique process that is active, potent, and strategically focused . . . and also a lot of fun. In Story Dash, Hutchens shares a repeatable process to find, develop, and deploy your “narrative assets”—that is, your urgent core stories that hold value. Even better, he will help you do it FAST; often in less than a day. Story Dash will help you to: • Access your natural capacity for storytelling • Find your stories—and figure out which ones to tell • Build your narrative so it lands with unforgettable impact • Find your own voice of authentic leadership • Bring more of who you are to your teams and your markets Fully illustrated and written in a clear, sharp voice, Story Dash shares the fastest way to find lots of stories that will create action around the work you care about most.

What You See Is What You Hear Sep 12 2021 What You See Is What You Hear develops a unique model of analysis that helps students and advanced scholars alike to look at audiovisual texts from a fresh perspective. Adopting an engaging writing style, the author draws an accessible picture of the field, offering several analytical tools, historical background, and numerous case studies. Divided into five main sections, the monograph covers problems of definitions, history, and most of all analysis. The first part raises the main problems related to audiovisuality, including taxonomical and historical questions. The second part provides the bases for the understanding of audiovisual creative communication as a whole, introducing a novel theoretical model for its analysis. The next three part focus elaborate on the model in all its constituents and with plenty of case studies taken from the field of cinema, TV, music videos, advertising and other forms of audiovisuality. Methodologically, the book is informed by different paradigms of film and media studies, multimodality studies, structuralism, narratology, “auteur theory” in the broad sense, communication studies, semiotics, and the so-called “Numanities.” What You See Is What You Hear enables readers to better understand how to analyze the structure and content of diverse audiovisual texts, to discuss their different idioms, and to approach them with curiosity and critical spirit.

Jesus Research Jul 18 2019 This volume explores nearly every facet of Jesus research -- from eyewitness criteria to the reliability of memory, from archaeology to psychobiography, from oral traditions to literary sources, and from narrative criticism to Gospel criticism. Bringing together a wide variety of topics and perspectives in one volume, this ambitious collaborative enterprise casts light on important debates and encourages creative links between ideas new and old. This distinguished collection of articles by internationally renowned Jewish and Christian scholars originates with the Princeton-Prague Symposium on Jesus Research. It summarizes the significant advances in understanding Jesus that scholars have made in recent years, chiefly through the development of diverse methodologies. Even readers who are already knowledgeable in the field will discover unique angles from well-known New Testament scholars, and all will be brought up to speed on the current state-of-play within Jesus studies.

Understanding Sustainable Architecture Nov 21 2019 Understanding Sustainable Architecture is a review of the assumptions, beliefs, goals and bodies of knowledge that underlie the endeavour to design (more) sustainable buildings and other built developments. Much of the available advice and rhetoric about sustainable architecture begins from positions where important ethical, cultural and conceptual issues are simply assumed. If sustainable architecture is to be a truly meaningful pursuit then it must be grounded in a coherent theoretical framework. This book sets out to provide that framework. Through a series of self-reflective questions for designers, the authors argue the ultimate importance of reasoned argument in ecological, social and built contexts, including clarity in the problem framing and linking this framing to demonstrably effective actions. Sustainable architecture, then, is seen as a revised conceptualisation of architecture in response to a myriad of contemporary concerns about the effects of human activity. The aim of this book is to be transformative by promoting understanding and discussion of commonly ignored assumptions behind the search for a more environmentally sustainable approach to development. It is

argued that design decisions must be based on both an ethical position and a coherent understanding of the objectives and systems involved. The actions of individual designers and appropriate broader policy settings both follow from this understanding.
