**Culture and Cultural Politics Under Reza Shah** Jul 30 2020  
Culture and Cultural Politics Under Reza Shah presents a collection of innovative research on the interaction of culture and politics accompanying the vigorous modernization programme of the first Pahlavi ruler. Examining a broad spectrum of this multifaceted interaction it makes an important contribution to the cultural history of the 1920s and 1930s in Iran, when, under the rule of Reza Shah Pahlavi, dramatic changes took place inside Iranian society. With special reference to the practical implementation of specific reform endeavours, the various contributions critically analyze different facets of the relationship between cultural politics, individual reformers and the everyday life of modernist Iranians. Interpreting culture in its broadest sense, this book brings together contributions from different disciplines such as literary history, social history, ethnomusicology, art history, and Middle Eastern politics. In this way, it combines for the first

time the cultural history of Iran's modernity with the politics of the Reza Shah period. Challenging a limited understanding of authoritarian rule under Reza Shah, this book is a useful contribution to existing literature for students and scholars of Middle Eastern History, Iranian History and Iranian Culture.

Javnost Mar 26 2020

Cultural Politics of Hygiene in India, 1890-1940 Aug 31

2020 This book examines genealogies of contagion in between contagion as microbe and contagion as affect. It analyzes how and why hygiene became authoritative and succeeded in becoming a part of the broader social and cultural vocabulary within the colonialist, anti-colonial, as well as modernist discourses.

*Dickens and the Popular Radical Imagination* Dec 03 2020

Sally Ledger offers substantial readings of the influences of radical writers on works from Pickwick to Little Dorrit.

*Philosophie als Kulturpolitik* Oct 25 2022

**Cultural Policy** Sep 19 2019 Contemporary society is complex; governed and administered by a range of contradictory policies, practices and techniques. Nowhere are these contradictions more keenly felt than in cultural policy. This book uses insights from a range of disciplines to aid the reader in understanding contemporary cultural policy. Drawing on a range of case studies, including analysis of the reality of work in the creative industries, urban regeneration and current government cultural policy in the UK, the book discusses the idea of value in the cultural sector, showing how value plays out in cultural organizations. Uniquely, the book crosses disciplinary boundaries to present a thorough

introduction to the subject. As a result, the book will be of interest to a range of scholars across arts management, public and nonprofit management, cultural studies, sociology and political science. It will also be essential reading for those working in the arts, culture and public policy.

*Political Constructivism* Jan 24 2020 Political

Constructivism is concerned with the justification of principles of political justice in the face of pluralism. Contemporary accounts of multiculturalism, pluralism and diversity have challenged the capacity of political theory to impartially justify principles of justice beyond the boundaries of particular communities. In this original account, Peri Roberts argues that political constructivism defends a conception of objective and universal principles that set normative limits to justifiable political practice. *Political Constructivism* explores this understanding in two ways. Firstly, by engaging with constructivist thinkers such as John Rawls and Onora O'Neill in order to lay out a basic understanding of what constructivism is. Secondly, the author goes on to defend a particular account of political constructivism that justifies a universal primary constructivism alongside the many secondary constructions in which we live our everyday lives. In doing so he outlines an understanding of principled pluralism which accepts diversity whilst at the same time recognising its limits. This volume will be of particular interest to students and researchers of political theory and political philosophy.

**Hierarchies in World Politics** Jun 21 2022 This book showcases the best new international relations research on hierarchy and moves the discipline forward in this new

direction.

*Democracy in the Balance* Feb 05 2021 Drawing on the disciplines of history, sociology, political science, and cultural anthropology, as well as an extensive bibliography of recent publications in Middle Eastern studies, *Democracy in the Balance* provides a comprehensive survey of the social and cultural dynamics of the Middle East, while its author sounds an impassioned call for the fundamental changes that are needed if democracy is to take root and eventually thrive in the region.

*Wonder and Education* Oct 21 2019 Many people, whether educators or not, will agree that an education that does not inspire wonder is barren. Wonder is commonly perceived as akin to curiosity, as stimulating inquiry, and as something that enhances pleasure in learning, but there are many experiences of wonder that do not have an obvious place in education. In *Wonder and Education*, Anders Schinkel theorises a kind of wonder with less obvious yet fundamental educational importance which he calls 'contemplative wonder'. Contemplative wonder disrupts frameworks of understanding that are taken for granted and perceived as natural and draws our attention to the world behind our constructions, sparking our interest in the world as something worth attending to for its own sake rather than for our purposes. It opens up space for the consideration of (radical) alternatives wherever it occurs, and in many cases is linked with deep experiences of value; therefore, it is not just important for education in general, but also, more specifically, for moral and political education.

*Sacred and Secular* Sep 24 2022 The belief that religion was

dying became the conventional wisdom in the social sciences during most of the 20th century. However, religion has not disappeared and is unlikely to do so, and the secularization thesis needs updating. This text develops a theory of secularization and existential security.

*The Southern Front* Feb 23 2020 Marxist historian Eugene Genovese has had a profound influence on the fields of Southern history and black studies and has made a significant contribution to intellectual exchange. In this book, Genovese offers a series of engaging and highly provocative reflections on history--particularly Southern history--and politics in the cultural war.

The Return of Cultural Treasures Mar 18 2022 New edition of Greenfield's pioneering study about the legal, political and historical aspects of cultural restitution. Copyright © Libri GmbH. All rights reserved.

**Towards a Cultural Politics of Climate Change** Feb 17 2022 This book develops new perspectives on the cultural politics of climate change and its implications for responding to this challenge.

**The Politics of Disclosure, 1674-1725** Jan 04 2021 This is a study of the 'secret history', a polemical form of historiography which flourished in England during the late seventeenth and early eighteenth centuries.

**Social Postmodernism** Dec 15 2021 Social Postmodernism defends a postmodern perspective anchored in the politics of the new social movements. The volume preserves the focus on the politics of the body, race, gender, and sexuality as elaborated in postmodern approaches. But these essays push postmodern analysis in a particular direction: toward a social

postmodernism which integrates the micro-social concerns of the new social movements with an institutional and cultural analysis in the service of a transformative political vision.

*Science, Colonialism, and Indigenous Peoples* Nov 14 2021

At the intersection of indigenous studies, science studies, and legal studies lies a tense web of political issues of vital concern for the survival of indigenous nations. Numerous historians of science have documented the vital role of late-eighteenth- and nineteenth-century science as a part of statecraft, a means of extending empire. This book follows imperialism into the present, demonstrating how pursuit of knowledge of the natural world impacts, and is impacted by, indigenous peoples rather than nation-states. In extractive biocolonialism, the valued genetic resources, and associated agricultural and medicinal knowledge, of indigenous peoples are sought, legally converted into private intellectual property, transformed into commodities, and then placed for sale in genetic marketplaces. *Science, Colonialism, and Indigenous Peoples* critically examines these developments, demonstrating how contemporary relations between indigenous and Western knowledge systems continue to be shaped by the dynamics of power, the politics of property, and the apologetics of law.

**Literature and Politics Today: The Political Nature of Modern Fiction, Poetry, and Drama** Nov 21 2019

Focusing on the intersection of literature and politics since the beginning of the 20th century, this book examines authors, historical figures, major literary and political works, national literatures, and literary movements to reveal the intrinsic links between literature and history. • Covers

numerous authors from around the world ranging from the beginning of the 20th century to the modern era • Enables students to better understand literary works central to the curriculum by considering them in their political contexts • Helps readers to use literature in order to learn about modern political and social issues across cultures and better appreciate the political significance of contemporary writings • Contains a number of "gateway" entries that survey entire national literatures, thereby giving readers an introduction to the authors who are important within those literatures • Assists students in evaluating rhetorical strategies and political views, thus fostering critical thinking in support of the Common Core State Standards

**Political Culture and Institutional Development in Costa Rica and Nicaragua** Jun 28 2020 This book explores the reasons behind the many failed attempts to build stable democracies in Latin America.

*The Cultural Politics of U.S. Immigration* Dec 23 2019 How the immigration policies and popular culture of the 1980's fused to shape modern views on democracy In the 1980s, amid increasing immigration from Latin America, the Caribbean, and Asia, the circle of who was considered American seemed to broaden, reflecting the democratic gains made by racial minorities and women. Although this expanded circle was increasingly visible in the daily lives of Americans through TV shows, films, and popular news media, these gains were circumscribed by the discourse that certain immigrants, for instance single and working mothers, were feared, censured, or welcomed exclusively as laborers. In *The Cultural Politics of U.S. Immigration*, Leah Perry

argues that 1980s immigration discourse in law and popular media was a crucial ingredient in the cohesion of the neoliberal idea of democracy. Blending critical legal analysis with a feminist media studies methodology over a range of sources, including legal documents, congressional debates, and popular media, such as *Golden Girls*, *Who's the Boss?*, *Scarface*, and *Mi Vida Loca*, Perry shows how even while “multicultural” immigrants were embraced, they were at the same time disciplined through gendered discourses of respectability. Examining the relationship between law and culture, this book weaves questions of legal status and gender into existing discussions about race and ethnicity to revise our understanding of both neoliberalism and immigration.

*Authenticity and the Cultural Politics of Work* Jul 10 2021

The 'personal' was once something to be put to one side in the work place: a 'professional manner' entailed the suppression of private life and feelings. Now many large corporations can be found exhorting their employees to simply be themselves. This book critically investigates the increasing popularity of personal authenticity in corporate ideology and practice. Rather than have workers adhere to depersonalising bureaucratic rules or homogenous cultural norms, many large corporations now invite employees to simply be themselves. Alternative lifestyles, consumption, ethics, identity, sexuality, fun, and even dissent are now celebrated since employees are presumed to be more motivated if they can just be themselves. Does this freedom to express one's authenticity in the workplace finally herald the end of corporate control? To answer this question, the author places this concern with authenticity within a political

framework and demonstrates how it might represent an even more insidious form of cultural domination. The book especially focuses on the way in which private and non-work selves are prospected and put to work in the firm. The ideas of Hardt and Negri and the Italian autonomist movement are used to show how common forms of association and co-operation outside of commodified work are the inspiration for personal authenticity. It is the vibrancy, energy and creativity of this non-commodified stratum of social life that managerialism now aims to exploit. Each chapter explores how this is achieved and highlights the worker resistance that is provoked as a result. The book concludes by demonstrating how the discourse of freedom underlying the managerial version of authenticity harbours potential for a radical transformation of the contemporary corporate form.

*Politics of the 'Other' in India and China* Oct 01 2020 The social sciences have been heavily influenced by modernization theory, focusing on issues of economic growth, political development and social change, in order to develop a predictive model of linear progress for developing countries following a Western prototype. Under this hegemonic paradigm of development the world tends to get divided into simplistic binary oppositions between the 'West' and the 'rest', 'us' and 'them' and 'self' and 'other'. Proposing to shift the discussion on what constitutes the 'Other' as opposed to the 'Self' from philosophy and cultural studies to the social sciences, this book explores how the structural asymmetries existing between Western discourses and the realities of the non-Western world manifest themselves in the ideas, institutions and socio-political

practices of India and China, and in how far they shape the social scientist's understanding of their discipline in general. It provides a counter-narrative by revealing the relativity of geographies, and by showing that the conventional presentation of core elements of the Asian socio-political set-up as 'aberrations' from the Western models fails to acknowledge their inherent strategic character of adapting Western concepts to meet local requirements. Drawing on multiple disciplines, concepts and contexts in India and China, the book makes a valuable contribution to the theory and practice of politics, as well as to International and Asian Studies.

**The Politics of the Core Leader in China** Oct 13 2021 This is the first full-length scholarly study of the Chinese 'core' leader and his role in the Chinese Communist Party's elite politics.

Shaftesbury and the Culture of Politeness Jul 22 2022 A study of the social and political thought of the third Earl of Shaftesbury, a pivotal figure in eighteenth-century thought and culture.

*The Italian Encounter with Tudor England* Apr 07 2021 The small but influential community of Italians in England during the fifteenth century initially consisted of ecclesiastics, humanists, merchants, bankers, and artists. However, in the wake of the English Reformation, Italian Protestants joined other continental religious refugees in finding Tudor England to be a hospitable and productive haven. Michael Wyatt examines the agency of this shifting community of immigrant Italians in the transmission of Italy's cultural patrimony and its impact on the nascent English nation, as

well as the exemplary career of John Florio, the Italo-Englishman who was a language teacher, lexicographer, and translator in Elizabethan and Jacobean England.

*Arvo Pärt's White Light* May 20 2022 The first substantial volume in English to explore the impact of Arvo Pärt on contemporary music and culture.

Conversion, Politics and Religion in England, 1580-1625

Aug 19 2019 A study of conversion and its implications during the English Reformation.

*Human Rights in Chinese Thought* Jun 16 2019 What should we make of claims by members of other groups to have moralities different from our own? *Human Rights in Chinese Thought* gives an extended answer to this question in the first study of its kind. It integrates a full account of the development of Chinese rights discourse - reaching back to important, though neglected, origins of that discourse in 17th and 18th century Confucianism - with philosophical consideration of how various communities should respond to contemporary Chinese claims about the uniqueness of their human rights concepts. The book elaborates a plausible kind of moral pluralism and demonstrates that Chinese ideas of human rights do indeed have distinctive characteristics, but it nonetheless argues for the importance and promise of cross-cultural moral engagement.

**Culture, Identity, and Politics** Aug 23 2022 Essays exploring the relationship between culture and politics in the modern world.

*Electoral Engineering* Apr 19 2022 From Kosovo to Kabul, the last decade witnessed growing interest in 'electoral engineering?'. Reformers have sought to achieve either

greater government accountability through majoritarian arrangements or wider parliamentary diversity through proportional formula. Underlying the normative debates are important claims about the impact and consequences of electoral reform for political representation and voting behavior. The study compares and evaluates two broad schools of thought, each offering contracting expectations. One popular approach claims that formal rules define electoral incentives facing parties, politicians and citizens. By changing these rules, rational choice institutionalism claims that we have the capacity to shape political behavior. Alternative cultural modernization theories differ in their emphasis on the primary motors driving human behavior, their expectations about the pace of change, and also their assumptions about the ability of formal institutional rules to alter, rather than adapt to, deeply embedded and habitual social norms and patterns of human behavior.

**The Cultural Politics of the New Criticism** Jul 18 2019

Mark Jancovich examines the development of the New Criticism during the late 1920s and early 1930s, and its establishment within the academy.

*Comparative Perspectives on Social Movements* Aug 11

2021 This volume, first published in 1996, examines various social movements from a comparative perspective.

Shakespeare's Troy Mar 06 2021 Heather James argues that Shakespeare's use of Virgil, Ovid and other classical sources demonstrates the appropriation of classical authority in the interests of developing a national myth. She goes on to distinguish Shakespeare's deployment of the myth--notably in *Troilus and Cressida*, *Antony and Cleopatra*, *Cymbeline*,

and *The Tempest*--from "official" Tudor and Stuart ideology, and to show how Shakespeare participates in the larger cultural project of finding historical legitimacy for Britain as a realm asserting its status as an empire.

Young People, Popular Culture and Education May 28 2020

Written to support the Education Studies student with full pedagogical features throughout, this book explores the inter-relationship between the three fields and considers how these relationships have informed teaching practice, especially in the school context.

Marriage, Performance, and Politics at the Jacobean Court

May 08 2021 *Marriage, Performance, and Politics at the Jacobean Court* constitutes the first full-length study of Jacobean nuptial performance, a hitherto unexplored branch of early modern theater consisting of masques and entertainments performed for high-profile weddings. Scripted by such writers as Ben Jonson, Thomas Campion, George Chapman, and Francis Beaumont, these entertainments were mounted for some of the most significant political events of James's English reign. Here Kevin Curran analyzes all six of the elite weddings celebrated at the Jacobean court, reading the masques and entertainments that headlined these events alongside contemporaneously produced panegyrics, festival books, sermons, parliamentary speeches, and other sources. The study shows how, collectively, wedding entertainments turned the idea of union into a politically versatile category of national representation and offered new ways of imagining a specifically Jacobean form of national identity by doing so.

**The Politics of Commonwealth** Jan 16 2022

This study examines what it meant to be a freeman and citizen in early

modern England.

**Rational Lives** Jun 09 2021 In contrast to this view, Dennis Chong shows that a single model that combines economic and sociological mechanisms can explain how people make decisions across both cultural and economic realms. He argues that the investments we make in the norms and values of our communities reflect the influence of our psychological dispositions, as well as the social and material costs and benefits of the options we face."--BOOK JACKET.

Talking Politics Nov 02 2020 Those who analyze public opinion have long contended that the average citizen is incapable of recounting consistently even the most rudimentary facts about current politics; that the little the average person does know is taken strictly from what the media report, with no critical reflection; and that the consequence is a polity that is ill prepared for democratic governance. And yet social movements, comprised by and large of average citizens, have been a prominent feature of the American political scene throughout American history and have experienced a resurgence. William Gamson asks, how is it that so many people become active in movements if they are so uninterested and badly informed about issues? The conclusion he reaches in this book is a striking refutation of the common wisdom about the public's inability to reason about politics.

Weber: Political Writings Apr 26 2020 Max Weber (1864-1920), generally known as a founder of modern social science, was concerned with political affairs throughout his life. The texts in this edition span his career and include his early inaugural lecture *The Nation State and Economic*

Policy, Suffrage and Democracy in Germany, Parliament and Government in Germany under a New Political Order, Socialism, The Profession and Vocation of Politics, and an excerpt from his essay The Situation of Constitutional Democracy in Russia, as well as other shorter writings. Together they illustrate the development of his thinking on the fate of Germany and the nature of politics in the modern western state in an age of cultural 'disenchantment'. The introduction discusses the central themes of Weber's political thought, and a chronology, notes and an annotated bibliography place him in his political and intellectual context.

*Culture Wars and Local Politics* Sep 12 2021 Contains eleven essays that examine instances in which local politicians have been called to act upon disputes grounded in moral concerns, such as abortion rights, conflicts over sexual orientation issues, hate crime, and others.
