Informal Funds Transfer Systems Nov 08 2020 Since the terrorist attacks of September 11, 2001, there has been increased public interest in informal funds transfer (IFT) systems. This paper examines the informal hawala system, an IFT system found predominantly in the Middle East and South Asia. The paper examines the historical and socioeconomic context within which the hawala has evolved, the operational features that make it susceptible to potential financial abuse, the fiscal and monetary implications for hawala-remitting and hawala-recipient countries, and current regulatory and supervisory responses.

Industrie 4.0 als unternehmerische Gestaltungsaufgabe Jan 11 2021 Das Buch führt die vielfältigen Forschungsbemühungen im Bereich Industrie 4.0 zusammen und stellt das bisher sehr stark aus technischer Perspektive diskutierte Thema explizit in den betriebswirtschaftlichen Kontext. Es zeigt, welche betriebswirtschaftlichen, technischen und auch rechtlichen Herausforderungen und Chancen mit Industrie 4.0 verbunden sind. Industrie 4.0 verbindet nicht nur – wie aus der Welt des Internets bisher gewohnt – virtuelle Dinge, sondern ganz im Sinne des „Internet of Things“ reale Dinge mit virtuellen Dingen und diese mit Menschen. Mit diesem Übergang zu einem digital vernetzten Gesamtsystem wird versucht, eine noch engere und vor allem auf realen Echtzeitdaten basierende Abstimmung von betriebswirtschaftlicher und technischer Informationsverarbeitung (nicht nur) im Fertigungssektor zu erreichen. Allerdings sind wichtige Fragestellungen bisher unbeantwortet: welche Industrie 4.0-Technologien in naher Zukunft die Rolle von Basistechnologien zur horizontalen und vertikalen Vernetzung in Echtzeit leisten können, wie die damit zusammenhängenden Schnittstellenprobleme gelöst werden können oder wie die Vernetzung von Mensch und Maschine von statten gehen soll. Auch der Bereich Produktinnovation und Geschäftsmodellentwicklung sowie die dahinter liegenden Smart-Data-Lösungen stecken noch in den Kinderschuhen, eine Reihe rechtlicher Fragen sind noch ungeklärt. Das Buch beantwortet die ersten Fragen, gibt aber auch Denkanstöße für noch zu klärende Aspekte dieses spannenden Forschungsgebiets. Die 2. Auflage wurde durchgesehen und korrigiert.

Mass Transfer Operations Sep 30 2022 In A Simple And Systematic Manner, This Book Presents An Exhaustive Account Of Various Mass Transfer Operations Involved In Chemical Engineering.Emphasising The Basic Concepts And Techniques, The Book Discusses In Detail Material And Energy Balances, Distillation, Absorption And Stripping And Extraction.The Book Also Explains The Relevant Aspects Of Equipment Design.Recent Developments Like Permeation, Ion Exchange And Froth Flootation Have Also Been Discussed.A Large Number Of Digital Computer Programs Are Included To Illustrate Computer-Aided Techniques.Several Solved Examples And Practice Problems Are Presented In Each Chapter To Illustrate The Theory.With All These Features, This Is An Ideal Text For Undergraduate Chemical Engineering Students. United States Practice in International Law: Volume 1, 1999–2001 Nov 28 2019 Sean D. Murphy's wide-ranging and in-depth 2002 survey of U.S. practice in international law in the period 1999–2001 draws upon the statements and actions of the executive, legislative and judicial branches of the U.S. government to examine its involvement across a range of areas. These areas include diplomatic and consular relations, jurisdiction and immunities, state responsibility and liability, international organizations, international economic law, human rights, and international criminal law. At the time of its first publication this summary of the most salient issues was a central resource on U.S. practice in international law. The volume contains extracts from hard-to-find documents, generous citations to relevant sources, tables of cases and treaties, and a detailed index. Revealing international law in the making, this essential tool for researchers and practitioners was the first in a series of books capturing the international law practice of a global player.
