This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

*Das Patentrecht - Die Bedeutung eines Patents für international operierende Unternehmen* Jun 17 2019 Studienarbeit aus dem Jahr 2009 im Fachbereich BWL - Allgemeines, Note: 1,5, AKAD University, ehem. AKAD Fachhochschule Stuttgart, Sprache: Deutsch, Abstract: Kreativität und Erfindergeist sind eine Tugend, die aufgrund des rohstoffarmen Landes Deutschland entwickelt wurden. Diese werden von deutschen Unternehmen immer mehr gefordert und gefördert. Doch was es genau bedeutet eine „bahnbrechende Erfindung“ zu entdecken und wie man sie einsetzt, um einen Nutzen daraus zu erhalten, ist oft nicht bekannt. In Deutschland gilt, wie in vielen anderen Ländern, die Nachahmungsfreiheit. Neue Erzeugnisse, Verfahren, Designs und sogar Marken dürfen normalerweise nachgeahmt werden. Infolgedessen hilft gegen Konkurrenz meist nur die rechtzeitige Anmeldung eines gewerblichen Schutzrechts, um eigene technische Neuentwicklungen, Produktgestaltungen und erfolgreiche Marken zu schützen. Die Belohnung für die geleistete Kreativität und Investition, ist der Schutz gegen Nachahmung und Ideenklau von Wettbewerbern, die der Inhaber erhält. Gerade im Hinblick auf den wachsenden europäischen und internationalen Markt gewinnen die Schutzrechte immer mehr an Bedeutung. Auf der einen Seite bedeutet für die Wirtschaft ein Wachstum der Märkte eine verstärkte Konkurrenz. Doch auf der anderen Seite bietet sie auch Chancen, neue Märkte zu erschließen. Hier gilt gerade für kleine und mittelständige

Unternehmen ihre Marktposition durch Schutzrechte abzusichern oder gar auszubauen. Somit stellen Schutzrechte primäre Bestandteile eines Unternehmens dar, das Produkte herstellt, vertreibt oder Verfahren entwickelt - Schließlich hat ein Unternehmen auch einen Ruf zu verlieren. In meiner Betriebswirtsarbeit möchte ich die Schutzrechte und besonders das Patent behandeln, die einem Unternehmen zur Verfügung stehen. Jeder kennt zwar das Patent, doch was es wirklich bedeutet ein Patent anzumelden und welchen Umfang ein Patent besitzt, versuche ich hier näher zu erläutern. Nicht alle Aspekte des Patentschutzes und anderer Schutzrechte können beleuchtet werden, dies würde den Rahmen dieser Betriebswirtsarbeit überschreiten. Aber auf die wichtigsten Schritte des Patentschutzes werde ich sorgfältig eingehen.
