A History of the Federal Reserve, Volume 1 Nov 01 2022 This first volume of Allan H. Meltzer's history of the Federal Reserve System covers the period from the Federal Reserve's founding in 1913 through the Treasury-Federal Reserve Accord of 1951. To understand why the Federal Reserve acted as it did at key points in its history, Meltzer draws on meeting minutes, correspondence, and other internal documents (many made public only during the 1970s) to trace the reasoning behind its policy decisions. He explains why the Federal Reserve remained passive throughout most of the economic decline that led to the Great Depression, and how the Board's actions helped to produce the deep recession of 1937 and 1938. He also highlights the impact that individuals had on the institution, such as Benjamin Strong, governor of the Federal Reserve Bank of New York in the 1920s, who played a large role in the adoption of a more active monetary policy by the Federal Reserve. From attempts to build a new international financial system at the London Monetary and Economic Conference of 1933 to the Bretton Woods Agreement of 1944 that established the International Monetary Fund and the World Bank, Meltzer also examines the influence the Federal Reserve has had on international affairs. The second, and last volume of this history covers the years 1951 to 1986 in two parts. These include the time of the Federal Reserve's second major mistake, the Great Inflation, and the subsequent disinflation. The volume summarizes the record of monetary policy during the inflation and disinflation.

The Secrets of the Federal Reserve -- The London Connection Jun 27 2022 From the Foreword. In 1949, while I was visiting Ezra Pound who was a political prisoner at St. Elizabeth's Hospital, Washington, D.C. (a Federal institution for the insane), Dr. Pound asked me if I had ever heard of the Federal Reserve System. I replied that I had not, as of the age of 25. He then showed me a ten dollar bill marked ""Federal Reserve Note"" and asked me if I would do some research at the Library of Congress on the Federal Reserve System which had issued this

bill. Pound was unable to go to the Library himself, as he was being held without trial as a political prisoner by the United States government. After he was denied broadcasting time in the U.S., Dr. Pound broadcast from Italy in an effort to persuade people of the United States not to enter World War II. Franklin D. Roosevelt had personally ordered Pound's indictment, spurred by the demands of his three personal assistants, Harry Dexter White, Lauchlin Currie, and Alger Hiss, all connected with Communist espionage.
